

ALPS Directional Switches

ALPS

ALPS 8-DIRECTIONAL SWITCH AND ENCODER WITH CENTER PUSH

NEW
PRODUCT

- 20mm biaxial unit w/ encoder (outer axis) and stick switch (inner axis)
- Stick switch with tactile feel in every direction
- Clicking mechanism of encoder for smooth rotational motion

- Rating: 10mA @ 5VDC
- Operating life (Switch/Encoder): 100,000 cycles/15,000 cycles
- Switch operating angle: "+" direction - 10° max.; "x" direction - 12° max
- Encoder resolution: 15 pulses, 15 detents

- Control sound, cursors, and switching modes in car audio and navigation systems
- Level controlling applications

For quantities of 500 and up, call for quote.
