

AMPHENOL RF Connectors and Adapters Amphenol®

RoHS Compliant This page of product is compliant.

AMPHENOL NON-MAGNETIC COAXIAL CONNECTORS

Designed to carry 50Ω signals within the magnetic field of MRI equipment where a high signal-to-noise ratio (SNR) is required. Product is manufactured under strict quality procedures throughout the entire production process to ensure that each connector will not produce image artifacts during MRI scans. All product is 100% tested for magnetism prior to shipping.

• Contact and body plating: Gold over white bronze

For quantities of 500 and up, call for quote.
