

HIROSE FPC/FFC Connectors

HIROSE ELECTRIC CO., LTD.

Common Features:

- Ease of Use and Space Savings: The Flip-lock design allows for the placement of 2 or more connectors side by side as there is no need to waste additional space for a side latch.
- Strengthened Flip-lock Actuator: The standard Flip-lock requires only 2.0mm height above the board. A strengthened lock lever is available which only requires an additional 0.4mm.
- Supports Thin FPC (0.18mm): Does not require double-sided FPC to have any additional strengthening plate or stiffener and can therefore support a thickness of as little as 0.18mm ±0.05.
- Prevention of Solder Bridging: Excess solder cavity absorbs excessive solder and avoids solder bridging.
- Three different assembly types: Top & Bottom Contact and Vertical Mount

Common Specifications:

- Current Rating: 0.5A
- Voltage Rating: 50VAC
- Operating Temperature: -40°C to +70°C

Materials:

- Insulator: Polyamide, LCP, Beige, UL94V-0
- Actuator: PPS, Dark Brown, UL94V-0
- Metal Fittings: Brass-Tin Plated

Applications:

- Notebook computers
- Printers
- PDAs
- Digital cameras
- Other compact devices for interconnecting the main circuit board with the LCD, HDD or other device

0.5MM - RIGHT ANGLE - BOTTOM CONTACT - GOLD

For quantities of 200 and up, call for quote.
