

# B&K PRECISION Programmers and Erasers

## BK PRECISION PROGRAMMERS

Each programmer has been designed for ease-of-use and reliable performance. Whether you are working with PLCC, SOIC, TSOP, DIP, TQFP, SSOP, PSOP or QFP, B+K Precision has an extensive line of socket adapters to interface with any IC package. These programmers are a must for anyone that tests, repairs, or programs any electronic device that uses a memory IC. Fast and reliable, you can depend upon B+K Precision programmers.

### Memory Programmer

**Features:**

- EPROM, EEPROM, Flash, NVRAM and serial EEPROM capability
- Low cost
- 32 pin DIL ZIF (Zero Insertion Force) socket accepts both 300/600 mil devices up to 32 pin
- Parallel printer port interface
- Easy to use control program, DOS and Windows 95/98/Me/NT/2000/XP compatible
- One year warranty
- Device library: 10,000

For quantities of 5 and up, call for quote.

### Universal Device Programmer with USB Interface

**Features:**

- The 866B is a universal device programmer with an extensive device library that is constantly updated.
- This programmer has been designed for ease of use and reliable performance and it is ideal for use with Laptop/Notebook computers that do not have parallel port interfaces.
- Whether you are working with PLCC, SOIC, TSOP, DIP, TQFP, SSOP, PSOP or QFP, B+K Precision has an extensive line of socket adapters to interface with any IC package.
- This programmer is a must for anyone that Tests, Repairs, or Programs any electronic device that uses a memory IC.
- 48 pin DIL ZIF (Zero Insertion Force) socket accepts both 300/600 mil devices up to 48 pin
- Over 12,438 supported devices (9,734 devices supported via USB interface) as of 5/27/04
- Fast and accurate programming 48 pin ZIF socket, no adapter required for any DIP device up to 48 pins
- Connector for in-circuit programming (ISP) Windows 95/98/Me/NT/2000/XP compatible
- Device library: 45,000

For quantities of 5 and up, call for quote.

### Device Programmer with USB PC Interface

The model 844USB is a great low cost USB interface programmer designed for anyone who wants to read, copy, program or burn common IC's

**Features:**

- Extensive device libraries, >11510
- Low cost and high performance
- Free technical support
- 40 pin DIL ZIF (Zero Insertion Force) socket accepts both 300/600 mil devices up to 40 pins
- USB 2.0/1.1 Interface
- Small, fast and powerful programmer
- In circuit serial programming (ISP) capability
- Easy to use control program, Windows 95/98/Me/NT/2000/XP compatible

For quantities of 5 and up, call for quote.

## BK PRECISION ERASERS

**Features:**

- Heavy duty EPROM eraser that can simultaneously erase up to 40 24 pin EPROMs. It has an all-metal case plus an advanced designed chip drawer that prevents UV radiation from being a hazard to the user. The chip drawer is lined with conductive foam to prevent electrostatic damage to the chips.

**Specifications:**

- Timer Setting: 30 min., 100-120VAC 50/60Hz
- UV Bulb Wattage: 10W
- Supplied: AC Power cord, Manual

For quantities of 5 and up, call for quote.
