StaticControl.com Made in America

## Description

Humidity Indicator Cards (HICs) are printed with moisture sensitive spots which respond to various levels of humidity with a visible color change from blue to pink. The moisture sensitive spots are made of blotting paper impregnated with cobaltous chloride. The humidity inside dry packed barrier bags can be monitored by including an HIC inside. When the bag is opened, the card can be examined for proper dryness inside the bag. Our HICs' chemistry formula involves a cobalt compound, but no sulfur compounds.

This card complies with IPC/ JEDEC J-STD-033D.

| Part Number                 | Card Size | Std Package      | Relative Humidity |
|-----------------------------|-----------|------------------|-------------------|
| <a href="#">51060HIC125</a> | 2" x 3"   | 125 pieces / can | 5/10/60           |
