Standard color black.

*Oval shaped gland opening; not UL Recognized.*

- Split Glands are designed for application to the cable **after the cable has passed through the LTGC**, e.g., RJ45 cable with Cat5e termination.
- Simply pass the cable termination through the LTGC body, apply Split Gland to the cable, and insert the gland/cable assembly into the LTGC fingers. Then tighten the Sealing Nut to achieve a **liquid tight seal**.
- For other cable/termination configuration sizes, and Pg and Metric hub threads, please consult Heyco.
- Integral Sealing Ring ensures a superior seal at the clearance or threaded mounting hole location, every time.
