Corcom
EMI/RFI Filter Product Overview

TE Connectivity offers over 300 solutions for EMI/RFI problems associated with susceptibility, as well as compliance with international emissions standards. Corcom filters are available in a wide range of single and 3-phase designs as well as IEC inlet and power entry modules which can combine several functions to reduce cost, space and labor. Solutions are also available for DC applications and applications requiring extremely high performance with feedthrough filters and capacitors for a wide range of applications.
FILTER TYPE | POWER LINE FILTERS
--- | --- | ---
SERIES | B Series | K Series | DK Series

**ELECTRICAL PARAMETERS**

| Max. voltage | 250 VAC | 250 VAC | 250 VAC |
| Current Ratings | 1, 2, 3, 5, 10, 20 or 30A | 1, 2, 3, 5, 10, 20, 30, 40 or 60A | 1, 3, 6, 10 or 20A |
| Leakage current each Line to Ground @ 120VAC 60Hz / 250VAC 50Hz | VB Models: .4 mA / .7 mA | VK Models: .5 mA / 1.0 mA | VDK Models: .4 mA / .7 mA |
| | EB Models: .21 mA / .36 mA | EK Models: .21 mA / .36 mA | EDK Models: .22 mA / .38 mA |

**MECHANICAL PARAMETERS**

| Mounting features | Screw mounting | Screw mounting (flange or panel) | Screw mounting |
| Termination inputs | .25 [6.3] spade terminals, 8-32 terminal bolt & nut or wire leads | .25 [6.3] spade terminals, 8-32 terminal bolt & nut, wire leads or IEC 60320-1 C14 or C20 | .25 [6.3] spade terminals, 8-32 terminal bolt & nut or wire leads |
| Termination outputs | .25 [6.3] spade terminals, 8-32 terminal bolt & nut or wire leads | .25 [6.3] spade terminals, 8-32 terminal bolt & nut or wire leads | .25 [6.3] spade terminals, 8-32 terminal bolt & nut or wire leads |

**PERFORMANCE**

**Approvals**
- UL / CSA / VDE
- UL / CSA / VDE
- UL / CSA / VDE

**Features**
- General purpose RFI Filters for high impedance load / low current
  - General purpose
  - Wide variety of termination options
  - Meets low leakage current requirements of VDE portable equipment and non-patient medical equipment
- General purpose RFI power line filters for high impedance loads
  - Well suited to applications where pulsed, continuous and/ or intermittent RFI interference is present
  - EK models meet the very low leakage current requirements for VDE portable equipment and non-patient care medical equipment
  - Available with ground line inductor (choke)
- Enhanced differential mode performance K Series RFI line filters
  - Higher performance line to line attenuation than the K Series
  - E version meets the very low leakage current requirements for VDE portable equipment and non-patient care medical equipment
  - V version features same high performance with more cost-effective design

**TYPICAL APPLICATIONS**

- Wide band RFI suppression for applications requiring low attenuation including:
  - HVAC
  - TV / Audio / Video
  - Computing & accessories
  - Home appliances
  - Medical equipment
  - Battery charging systems
  - Exercise equipment
- Universal filter for applications requiring mid-range attenuation including:
  - TV / Audio / Video
  - Computing & accessories
  - Home appliances
  - Medical equipment
  - Gaming machines
  - Exercise equipment
  - Test measurement equipment
- Universal filter for applications requiring improved attenuation including:
  - TV / Audio / Video
  - Computing & accessories
  - Home appliances
  - Medical equipment
  - Gaming machines
  - Exercise equipment
**POWER LINE FILTERS**

**R Series**
- Two-stage general purpose RFI power line filter
  - Dual T section RFI filter provides premium performance
  - Well suited for low impedance loads where noisy RFI environments are present
  - Controls pulsed, continuous and/or intermittent interference
  - ER model offers low leakage current without deterioration of insertion loss
- 250 VAC
- 1, 2, 3, 5, 10 or 20A
- VR Models: 0.4 mA / 0.7 mA
  - ER Models: 0.21 mA / 0.36 mA

**EBP, EDP, EOP Series**
- General Purpose
- Low leakage current
- Cost-effective
- Compact size
- EDP model features enhanced differential mode performance
- EBP model features compact size (less than 1" square)
- Single stage
- Screw mount or panel
  - .25 [6.3] spade terminals, 8-32 terminal bolt & nut, wire leads or IEC 60320-1 C14
- PCB pins .025 [.635] square
- EDP/EOP Models: 0.22 mA / 0.38 mA
  - EBP Models: 0.13 mA / 0.21 mA
  - A, B & C Models: 0.76 mA / 1.27 mA
  - D, E & F Models: 0.10 mA / 0.20 mA

**WG Series**
- High performance, low cost filter ideal for appliance equipment
  - Cost effective
  - Tubular design
  - WGD, WGE and WGF versions designed to comply with leakage current requirements for appliances which may be easily moved from one place to another
  - Available in a variety of styles
  - UL / CSA / VDE
- 250 VAC
- 1, 3, 6 or 10A
- EDP/EOP Models: 0.22 mA / 0.38 mA
  - EBP Models: 0.13 mA / 0.21 mA

**X, Y & Z Series**
- RFI filter designed to bring most digital equipment (including those with switching power supplies) into compliance with EN55022, Level A or B and FCC Part 15J, Class B conducted emission limits. Ideal for all applications with limited space including:
  - Switching Power Supplies
  - Industrial single phase applications
- Universal filter for applications with low impedance loads including:
  - Motors
  - Semiconductor actuators
  - Home appliances
  - Gaming machines
  - Exercise equipment
  - Security systems
  - Industrial equipment & controls
- Designed for PCB mounting for a wide range of applications including:
  - Gaming machines
  - Cash terminals
  - Office equipment
  - Small consumer electronics
  - TV / Audio / Video
  - Computing & accessories
- Specially designed for the white goods / appliance market. Offers wide band RFI suppression for many applications including:
  - Washing machines / dryers
  - Dishwashers
  - Refrigerators & freezers
  - Coffee Machines
  - Hand held appliances & tools
  - Ovens & ranges
- Chassis or PC Board Mountable Power Line Filters for Emission Control
  - Compact chassis or PC board mountable
  - Three levels of performance
  - Complete filtering solution in minimal size
  - X Series for FCC Part 15J, Class B
  - Y Series for EN55022, Level A
  - Z Series for EN55022, Level B
  - Medical version available in the HZ Series

**Universal filter for applications with low impedance loads including:**
- Motors
- Semiconductor actuators
- Home appliances
- Gaming machines
- Exercise equipment
- Security systems
- Industrial equipment & controls

**Designed for PCB mounting for a wide range of applications including:**
- Gaming machines
- Cash terminals
- Office equipment
- Small consumer electronics
- TV / Audio / Video
- Computing & accessories

**Specially designed for the white goods / appliance market. Offers wide band RFI suppression for many applications including:**
- Washing machines / dryers
- Dishwashers
- Refrigerators & freezers
- Coffee Machines
- Hand held appliances & tools
- Ovens & ranges

**Chassis or PC Board Mountable Power Line Filters for Emission Control**
- Compact chassis or PC board mountable
- Three levels of performance
- Complete filtering solution in minimal size
- X Series for FCC Part 15J, Class B
- Y Series for EN55022, Level A
- Z Series for EN55022, Level B
- Medical version available in the HZ Series

**Corcom Filter Products**

**Two-stage general purpose RFI power line filter**
- Dual T section RFI filter provides premium performance
- Well suited for low impedance loads where noisy RFI environments are present
- Controls pulsed, continuous and/or intermittent interference
- ER model offers low leakage current without deterioration of insertion loss

**High performance, low cost filter ideal for appliance equipment**
- Cost effective
- Tubular design
- WGD, WGE and WGF versions designed to comply with leakage current requirements for appliances which may be easily moved from one place to another
- Available in a variety of styles

**Chassis or PC Board Mountable Power Line Filters for Emission Control**
- Compact chassis or PC board mountable
- Three levels of performance
- Complete filtering solution in minimal size
- X Series for FCC Part 15J, Class B
- Y Series for EN55022, Level A
- Z Series for EN55022, Level B
- Medical version available in the HZ Series

**250 VAC**
- 1, 2, 3, 5, 10 or 20A
- 1, 3, 6 or 10A
- 16A
- 1, 2, 3, 4 or 6A

**VR Models:**
- 0.4 mA / 0.7 mA
  - ER Models: 0.21 mA / 0.36 mA

**EDP/EOP Models:**
- 0.22 mA / 0.38 mA
  - EBP Models: 0.13 mA / 0.21 mA
  - A, B & C Models: 0.76 mA / 1.27 mA
  - D, E & F Models: 0.10 mA / 0.20 mA

**Universal filter for applications with low impedance loads including:**
- Motors
- Semiconductor actuators
- Home appliances
- Gaming machines
- Exercise equipment
- Security systems
- Industrial equipment & controls

**Designed for PCB mounting for a wide range of applications including:**
- Gaming machines
- Cash terminals
- Office equipment
- Small consumer electronics
- TV / Audio / Video
- Computing & accessories

**Specially designed for the white goods / appliance market. Offers wide band RFI suppression for many applications including:**
- Washing machines / dryers
- Dishwashers
- Refrigerators & freezers
- Coffee Machines
- Hand held appliances & tools
- Ovens & ranges

**Corcom Filter Products**

**POWER LINE FILTERS**

**General Purpose**
- Screw mounting (flange or panel)
  - .25 [6.3] spade terminals, 8-32 terminal bolt & nut, wire leads or IEC 60320-1 C14
  - PCB pins .025 [.635] square

**Wide Range Performance**
- Screw-in mounting stud
  - .25 [6.3] spade terminals or RAST 5 header interface
  - .25 [6.3] spade terminals or PCB pins .065 [.165] diagonal

**Universal filter for applications with low impedance loads including:**
- Motors
- Semiconductor actuators
- Home appliances
- Gaming machines
- Exercise equipment
- Security systems
- Industrial equipment & controls

**Designed for PCB mounting for a wide range of applications including:**
- Gaming machines
- Cash terminals
- Office equipment
- Small consumer electronics
- TV / Audio / Video
- Computing & accessories

**Specially designed for the white goods / appliance market. Offers wide band RFI suppression for many applications including:**
- Washing machines / dryers
- Dishwashers
- Refrigerators & freezers
- Coffee Machines
- Hand held appliances & tools
- Ovens & ranges

**Chassis or PC Board Mountable Power Line Filters for Emission Control**
- Compact chassis or PC board mountable
- Three levels of performance
- Complete filtering solution in minimal size
- X Series for FCC Part 15J, Class B
- Y Series for EN55022, Level A
- Z Series for EN55022, Level B
- Medical version available in the HZ Series

**X, Y & Z Series**
- 250 VAC
- 1, 2, 3, 4 or 6A
- .3 mA / .5 mA

**250 VAC**
- 1, 2, 3, 5, 10 or 20A
- 1, 3, 6 or 10A
- 16A
- 1, 2, 3, 4 or 6A

**VR Models:**
- 0.4 mA / 0.7 mA
  - ER Models: 0.21 mA / 0.36 mA

**EDP/EOP Models:**
- 0.22 mA / 0.38 mA
  - EBP Models: 0.13 mA / 0.21 mA
  - A, B & C Models: 0.76 mA / 1.27 mA
  - D, E & F Models: 0.10 mA / 0.20 mA

**Universal filter for applications with low impedance loads including:**
- Motors
- Semiconductor actuators
- Home appliances
- Gaming machines
- Exercise equipment
- Security systems
- Industrial equipment & controls

**Designed for PCB mounting for a wide range of applications including:**
- Gaming machines
- Cash terminals
- Office equipment

### FEATURES

- **Multipurpose Power Line RFI Filter for Emission Control**
  - Effective when used to control emissions in equipment using SCR and T2L circuits
  - S & W Series designed for high impedance frequencies
  - V Series designed for low impedance frequencies
  - Medical version available in the MV Series

- **High Performance RFI Filters for Switching Power Supplies For increased filtering requirements**
  - Designed to provide excellent attenuation for most digital electronics equipment and help comply with EN55022 Level A and FCC Part 15J Class B
  - Broad frequency range of performance from 20kHz to 30MHz
  - Size and cost-effective solution

- **High Performance B Series RFI Line Filters**
  - Small size with enhanced performance
  - 30A version half the size of other 30A filters
  - Low leakage version available

### TYPICAL APPLICATIONS

- **Multipurpose power line RFI filter for emission control and high noise industrial environments and applications that require compliance with FCC Part 15, Subpart J and EN55022, Level A, down to 150kHz including:**
  - Consumer electronics
  - Small machine tools
  - Food service equipment
  - Measurement & Instrumentation

- **Specifically designed for most digital electronic equipment requiring a high range of symmetric and asymmetric attenuation including:**
  - Switching power supplies
  - Motor drives
  - Small machine tools
  - Industrial single-phase applications

- **Wide band RFI suppression for applications requiring enhanced performance including:**
  - TV / Audio / Video
  - Computing & accessories
  - Home appliances
  - Medical equipment
  - Gaming machines
  - Exercise equipment
## POWER LINE FILTERS (Continued)

### SK Series
- **High Performance K Series RFI Line Filters for SMPS Emission Control**
  - Designed to reduce conducted noise to acceptable limits for equipment that must comply with FCC / EN specifications
  - Utilizes significantly higher element values than the general purpose K Series
  - ESK6C and VSK6C incorporate separate ground circuit inductor

### RK Series
- **EMC Series**
  - High Performance Compact Power Line Filter
    - Compact
    - Single stage
    - Significant differential mode performance
    - Suitable for industrial machinery
    - Low input leakage current makes it suitable for portable equipment

### EMC Series
- **Compact and Cost-effective Dual Stage RFI Power Line Filters**
  - Compact dual stage filter series
  - Current rating up to 30A
  - High differential mode attenuation in the lower frequency range
  - High common mode performance
  - Ideal for switching mode power supplies

### IK Series
- **Wide Range Performance**
  - Excellent performance for applications with high interference levels
  - Designed for single or two-phase applications
  - Available touch safe terminals provide easy connections and prevent inadvertent contact

### UL / CSA / VDE
- **250 VAC**
- **3, 6, 10, 20, 30 & 40A**
- **.4 mA / .7 mA (3-10A VSK models)**
- **.21 mA / .36 mA (3-10A ESK models)**
- **.75 mA / 1.25 mA (3-10A VSK models)**
- **.3 mA / .5 mA (3-10A ESK models)**

- **250 VAC**
- **3, 6, 10, 15 & 20A**
- **.16 mA / .26 mA**

- **250 VAC**
- **3, 6, 10, 15, 20 & 30A**
- **.21 mA / .43 mA (3-10A models)**
- **.73 mA / 1.52 mA (15-30A models)**

- **500 VAC MAX. Line to Ground**
- **1, 6, 16, 35, 50 & 80A**
- **.06 mA / 1.2 mA* (1 & 6A models)**
- **1.7 mA / 3.2 mA* (16 - 50A models)**
- **5.2 mA / 9.9 mA* (80A model)**

* 1A @ 289 VAC, 16-80A @ 277 VAC 50Hz

### Screw mounting (flange or panel)
- **.25 [6.3] spade terminals, terminal bolt & nut, wire leads or IEC 60320-1 C14**
- **.25 [6.3] spade terminals, 8-32 terminal bolt & nut or wire leads**
- **.25 [6.3] spade terminals, 8-32 terminal bolt & nut or DIN type terminal block and bolt/nut**

### Universal filter for consumer electronic applications requiring a premium range of attenuation including:
- TV / Audio / Video
- Computing & accessories
- Home appliances
- Medical equipment
- Industrial equipment & controls
- Exercise equipment

### Wide band RFI suppression for applications requiring high attenuation levels including:
- Consumer electronics
- Industrial machinery equipment
- Small machine tools
- Home appliances
- Power supplies

### Wide band RFI suppression for applications requiring high attenuation levels including:
- Consumer electronics
- Single phase industrial equipment
- Inverters
- Switching power supplies

### Wide band RFI filter for small to medium sized industrial equipment, power converters and variable speed motors. Provides suppression of industrial 2-phase applications with high RFI emissions including:
- Transportation vehicles
- Site applications
- Small construction machinery

## PERFORMANCE

### Approvals
- **UL / CSA / VDE**
- **UL / CSA / VDE**
- **UL / CSA / VDE**

### Features
- **Highest Performance RFI Filters for Switching Power Supplies**
  - High attenuation for common and differential mode interference
  - Effective from 10kHz to 30MHz
  - Optimized for attenuation and size
  - 3 or 6A versions available with IEC inlet
  - Medical version available in the HQ Series

- **Single Phase Power Line Filter for Frequency Converters**
  - Designed for frequency inverters and variable speed motor drives
  - Suitable for electronically noisy environments
  - Protects programmable logic controllers from RF noise on the AC power line
  - Touch safe terminals

- **Dual Stage RFI Power Line Filters for Switching Mode Power Supplies**
  - Dual stage filter offers high insertion loss
  - Well suited for meeting CISPR 22 A and FCC Part 15J, Class B
  - EP model meets very low leakage current requirements
  - 7 and 12A versions offer optimum package size

### Superior Performance

## ELECTRICAL PARAMETERS

### Max. voltage
- 250 VAC
- 250 VAC
- 250 VAC

### Current Ratings
- 3, 6 & 20A
- 6 & 10A
- 3, 6, 7, 10, 12 & 20A

### Leakage current each Line to Ground @ 120VAC 60Hz / 250VAC 50Hz
- .73 mA / 1.27 mA (3 & 20A VQ models)
- .22 mA / .38 mA (3 & 20A EQ models)
- .29 mA / .51 mA (6A EQ models)
- 3.9 mA / 7.0 mA (B suffix, single stage)
- 3.8 mA / 6.7 mA (no suffix, dual stage)
- .73 mA / 1.27 mA (VP models)
- .21 mA / .36 mA (EP models)

### Electrical Setup
- Dual stage (medical versions without y-capacitors)
- Single stage (B suffix)
- Dual stage (no suffix)

### MECHANICAL PARAMETERS

#### Mounting features
- Screw mounting (flange or panel)
- Screw mounting
- Screw mounting (flange or panel)

#### Termination inputs
- .25 [6.3] spade terminals, wire leads or IEC 60320-1 C14
- DIN type terminals
- .25 [6.3] spade terminals, wire leads, terminal bolt & nut, or IEC 60320-1 C14

#### Termination outputs
- .25 [6.3] spade terminals or wire leads
- DIN type terminals
- .25 [6.3] spade terminals, wire leads, or terminal bolt & nut

### TYPICAL APPLICATIONS

- Trouble shooter for wide banded RFI suppression of applications with very high RFI emissions including:
  - Consumer electronics
  - Single phase industrial applications
  - Switching power supplies with transient currents
  - HVAC

- Wide band RFI suppression of industrial single phase applications with very high RFI emissions including:
  - Drives with long motor-cables
  - Variable speed motor drive applications

- Wide band attenuation for applications with very high RFI emissions. This filter series offers excellent attenuation for applications such as:
  - Consumer electronics
  - Single phase industrial applications
  - Drive motors and controllers

* VDE approvals for dual stage models up to 36A only

### Screw Mounting

- **Screw mounting**
  - .25 [6.3] spade terminals, wire leads, terminal bolt & nut, or IEC 60320-1 C14
  - Wire leads, or IEC 60320-1 C14

- **Screw mounting (flange or panel)**
  - Spade terminals, PCB pins, wire leads, DA or DCB connector, or terminal bolt & nut

- **Screw mounting & snap-in**
  - Spade terminals, PCB pins, wire leads, DA or DCB connector, or terminal bolt & nut

- **Screw terminal**
  - Screw terminal

### Wide Band Attenuation

- Wide band attenuation for applications with very high RFI emissions including:
  - Consumer electronics
  - Single phase industrial applications
  - Drive motors and controllers
  - Commercial & building equipment

- Ideal filter series for hardened applications where computers are used to process secret or confidential information.
  - Network routing equipment
  - Servers
  - Switching equipment
  - Wireless cabinets
  - Ethernet hubs
  - Base stations
  - Repeater stations
  - Power supplies for all types of communications equipment

- Universal applications including:
  - Servers and routers
  - Base stations
  - Transportation
  - Telecom
  - MRI rooms
  - High current switch mode power supplies
  - Military and aerospace

- Compact Low Current 3-phase WYE RFI Filters
  - For 3-phase, four wire, WYE applications
  - Filters each of the three lines plus neutral
  - Good for attenuation beginning at 100kHz
  - Space saving design
  - Low leakage current

- 3-phase WYE RFI Power Line Filters
  - For 3-phase, four wire, WYE applications
  - Cost-effective, universal 3-phase filters
  - Good attenuation over the complete frequency range of 10kHz to 30MHz
  - Two different mounting styles available

- High Performance 3-phase RFI Filters for WYE Applications
  - Common mode and differential mode suppression from 50kHz to 30MHz
  - Optional end bell kits available to shield input and output terminals
  - AYP single stage for lower noise environments
  - AYT dual stage provides highest performance

**TYPICAL APPLICATIONS**

- Wide band RFI suppression for general purpose 3-phase applications with low to middle RFI emissions including:
  - Vending machines
  - Food service equipment
  - Gaming machines
  - Small machine tools

- Universal filter series equipped with 2 different connecting versions including:
  - Uninterruptible power supplies
  - Industrial control systems
  - Machine tools

- Wide band RFI suppression for industrial 3-phase applications with high noise emissions (AYP models) and lower noise emissions (ATY models) including:
  - Large machine tools
  - Customer machinery
  - Input filter for motor drives

² All models except 16AYA10, 30AYA10, 63AYA6, 63AYA6A and 100AYA6A

#### 3-phase Delta External Power Line Filter for Frequency Converters
- Very high attenuation & high insertion loss
- BS models optimized for very high insertion loss
- BS models suitable for infeed/regenerative (ER) applications
- Touch safe terminals provide easy connections and prevent inadvertent contact for safety

#### Compact 3-phase Delta RFI Filters for Universal Applications
- Compact, light weight book-form design
- Insulated, high quality safety terminals for input and output
- Good common and differential mode performance below 100kHz
- Touch safe terminals provide easy connections and prevent inadvertent contact for safety

#### 3-phase WYE RFI Power Line Filters for High Noise Applications
- For 3-phase, four wire, WYE applications
- Very high attenuation with low leakage current
- Ideal for EMC troubleshooting and refurbishing in the field
- Touch safe terminals provide easy connections and prevent inadvertent contact for safety

#### High Performance High Current 3-phase Delta RFI Filters
- Designed for very high insertion loss for Delta three phase, three wire applications
- Available with common or differential mode coils

#### BCF Series
**Compact 3-phase Delta RFI Filters for Universal Applications**
- Compact, light weight book-form design
- Insulated, high quality safety terminals for input and output
- Good common and differential mode performance below 100kHz
- Touch safe terminals provide easy connections and prevent inadvertent contact for safety

#### UL & VDE
- Single stage
- Screw mounting (flange)
- Terminal bolt & nut

#### Dual stage (blank suffix models)
- Single stage
- Screw mounting (flange)
- Terminal bolt & nut

#### BCF Series
- Specially suited for regeneration systems of returning power: Wide banded RFI suppression for industrial 3-phase applications with very high RFI emissions including:
  - Machine tools
  - Elevators & escalators
  - Frequency converters
  - Industrial cabinets

#### Wide band RFI suppression for industrial 3-phase applications with very high RFI emissions including:
  - Machine tools
  - High current motor drives
  - Spot-welding machines
  - Any difficult application with very difficult noise suppression

#### ADT Series
- Wide band RFI suppression for WYE applications with very high RFI emissions including:
  - Frequency converters with very long motor cables
  - Machine tools
  - Terminal bolt & nut

#### AYC Series
- Wide band RFI suppression for WYE applications with extremely high noise emissions including:
  - Frequency converters with very long motor cables
  - Machine tools

#### 480 VAC Phase to Phase 277 VAC Phase to Neutral / Ground
| 6 to 230A | 7 to 130A | 16 to 200A | 63, 100, 160 & 200A |

- Varies from .26 mA/V for 6A model to 3.25 mA/V for FCD10BS models refer to catalog or website for full ratings voltage drop to virtual N to PE/V
- 30 mA @ 277 VAC 50Hz
- Varies from 62 / 106 mA/V for 16A to 111 / 192 mA/V for 200A model refer to catalog or website for full ratings @ 120 VAC 60Hz / 277 VAC 50Hz
- 1.3A (ADT6)
- 2.6A (63ADT6S)
- 4.6A (100, 160, 200ADT6S) @ 277VAC 60Hz

#### Wide band RFI suppression for industrial 3-phase applications with very high RFI emissions including:
- Machine tools
- Elevators & escalators
- Frequency converters
- Industrial cabinets

#### Wide band RFI suppression for WYE applications with very high RFI emissions including:
- Frequency converters with very long motor cables
- Machine tools

**Versatile Power Entry Module with Small Footprint**
- Snap-in or flange mounting
- Standard IEC 60320-1 C14 power inlet
- Both North American and metric fusing capabilities
- Two voltage selection options
- Optional DPST on/off switch
- Filter options for general purpose, medical and high-performance EMI filtering

**Compact 1U Height Switched Power Entry Module**
- Designed for popular 1U (1 ¾") height rack mounted equipment
- Two function power entry module combining a SPST switch and an IEC 60320-1 inlet
- Snap-in, flange and flush mounting
- Reduce OEM wiring time with optional pre-connected line and switch terminals

**Smallest Power Entry Module with Metric Fuse Holders**
- Single or dual fusing
- Two element circuit provides basic attenuation
- Available with an internal ground-circuit inductor (C versions) to isolate equipment chassis from power line ground at radio frequencies
- Multiple termination and mounting styles
- Medical version as the HG Series identical to GG with dual fuse only

**Versatile Power Entry Module with Small Footprint**
- Snap-in or flange mounting
- Standard IEC 60321-1 C14 power inlet
- Both North American and metric fusing capabilities
- Two voltage selection options
- Optional DPST on/off switch
- Filter options for general purpose, medical and high-performance EMI filtering

**Superior Performance**
- Superior EMI filter with IEC 60320-1 inlet
- Double three element differential mode circuit attenuates noise up to 1GHz
- Up to 15A with IEC 60320-1 C14
- 20A rating with IEC 60320-1 C20
- Spade terminals or wire leads

**Specially designed for 1U height equipment racks and can be used in space limited applications including:**
- Telecom
- Computing
- TV / Audio / Video
- Consumer electronics

*15A versions are tested by UL to US and Canadian requirements and are VDE approved at 10A
