

**RoHS Declaration
HAZARDOUS SUBSTANCES
RoHS (Restriction of Hazardous Substances)
WEEE (Waste Electrical & Electronic Equipment)**

Statement

Elektron Technology UK Ltd, all Arcoelectric and Bulgin products, as a manufacturer of articles conforms to the European Parliament & Council directives, 2011/65/EU Restriction of Hazardous Materials (RoHS).

Conformance is based on declarations received from our suppliers that the products and raw materials they supply comply with the European Parliament & Council Directives, 2011/65/EU Restriction of Hazardous Materials (RoHS) (including lead and cadmium requirements). However, we do not routinely analyse their products for the above substances nor do we require our raw materials suppliers to do so.

Packaging

We are confident, if present at all, the levels of Cadmium (Cd), Hexavalent Chromium (Cr), Lead (Pb) and Mercury (Hg) are below the 1994 CONEG Guideline of 100ppm, the limits of the European Directive 94/62/EC (Packaging Waste Directive) 100ppm.

The articles manufactured do not fall into the ten categories listed in Annex 1 of the Directive 2002/96/EC Waste Electrical and Electronic Equipment (WEEE), therefore the regulation does not apply.

Elektron Technology UK Ltd
