When a standard cabinet isn't exactly what you need, Hammond can modify our designs for the ideal cabinet solution. Should you need some assistance specifying your enclosure, our experienced sales and design professionals will share their expertise to help determine which enclosure would best fit your needs. Unlike costly custom projects, Hammond offers five different options of tweaking existing cabinet designs to accommodate your needs.

Here's a list of just some of the *common* modifications we can do for you:

- Special Paint Colors
- Silk Screening
- Non-Standard Sizes
- Alternate Material Construction
- Cutouts
- Punched Holes
- Louvers
- Tapped Holes
- Pre-Installed Accessories
- Alternate Handles
- Add, Move or Delete Studs
- Hinge Changes
- and more...

Why have Hammond modify your enclosure?

There are two good reasons - **quality** and **cost**.

Hammond is a name trusted for cabinet quality for 95 years!

Our highly accurate laser work centers and CNC punches can guarantee the exact location and dimensions of your holes and cutouts. Our ultra-durable powder paint can be color matched to your specifications ensuring a factory quality paint finish every time.

Consider the true costs of modifying cabinets at your factory or outsourced. When you add up prep time, layout, drilling, tapping, cutting, paint touch up, assembly and the extra product handling, you'll see the value in getting a modified product from Hammond that's ready to load up.
