BMOD0500 P016 Monitor Cable Connector Change
BMOD0165 P048 Monitor Cable Connector Change

Dear Maxwell customer,

Maxwell product BMOD0500 P016 and BMOD0165 P048 include a mating connector for the monitor cable in each module package currently shipped. The current part is a Deutsch DTM04-4P. Maxwell has qualified an alternate part, Amphenol ATM04-4P. Effective immediately, both parts are available for use and are interchangeable.

Maxwell has recently removed the connector and its associated parts (connector, pins and lock) from the BMOD0500 P016 and BMOD0165 P048 module packaging to allow customers the ability to create a mating cable without having to open each module package to retrieve the connector and associated parts. If you require these materials, a separate line item on the customer purchase order is required (reference the table below for the appropriate part numbers). The three items necessary to create a mating connector harness are:

P/N	Description	Qty per Module
104995	CONTACT, SOLID, PIN	4
106841	CONNECTOR, RECPT, 4 PIN	1
106840	CONN,WEDGELCK, FOR 4 PIN RECPT	1

If you have any questions please feel free to consult with our local Sales representative for more information.

Kind regards,

Maxwell Technologies, Inc.

(Revised from original document released on May 1, 2013 to include the 16V module)
