

You make high bay and low bay lighting.

We'll make your high bay and low bay lighting shine – with long life times, outstanding efficacy and market leading performance.

PHILIPS
LUMILEDS

High Bay and Low Bay Lighting

Energy saving LEDs for more productive environments

Application requirements

- Increased optical control optimizes luminaire spacing and puts light where it is needed
- Accurate color rendering for productivity and safety
- Instant on without compromising reliability
- Ideal for dimming and occupancy based controls
- Provides uniform lighting

“My warehouse has never looked better. The electric bill has been cut in half and my workers are happier.”

Philips Lumileds LEDs outperform conventional lighting

	System Efficacy	Reliability
HID	60 lm/W	15,000 hrs
Philips Lumileds LEDs	>100 lm/W	>60,000 hrs

LUXEON Quality of Light

Color Spectrum and Rendering

Color Consistency between Sources

Color in Application

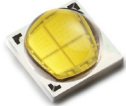

Color Consistency over Beam

Color Consistency over Lifetime

	Product/Type	Key Benefits	Flux (5700K Typical)	System Efficacy	Cost Efficient	CCT Accuracy
Arrays	 LUXEON M	<ul style="list-style-type: none"> Flexibility to design for high efficiency or lower cost Assembly and manufacturing cost savings due to component count reduction 	1000 lm @ 700 mA, 85°C	+++	+++	3-Step/ 5-Step
	 LUXEON CoB	<ul style="list-style-type: none"> Easy to use, drop in, high flux solution Highest uniformity and efficiency in a small light emitting surface 	1000 to 8000 lm 85°C, 70 CRI	++	+++	3-Step/ 5-Step
	 LUXEON K	<ul style="list-style-type: none"> High lumen arrays ensuring bright light where needed Fully characterized light source resulting in ease of design and assembly <i>Freedom from Binning</i> – single V_f Flux and CCT bin 	4140 lm (16-up) 6200 lm (24-up) @ 700 mA, 85°C, 70 CRI	+++	+++	3-Step/ 5-Step
High-Power LEDs	 LUXEON T	<ul style="list-style-type: none"> Best performance in a highly efficient package 	255 lm @ 700 mA, 85°C	+++	+++	3-Step/ 5-Step
	 LUXEON Z ES	<ul style="list-style-type: none"> Small optical source size enables unique optical solutions Footprint compatible with LUXEON T allows for design flexibility. 	215 lm @ 700 mA, 85°C	++	+++	3-Step/ 5-Step
Distributed Light Solutions	 LUXEON 3535L & LUXEON 3535 2D	<ul style="list-style-type: none"> High efficiency and cost effective mid-power LEDs 	75 lm @ 100 mA, 25°C	+++	+++	ANSI

Ecosystem

Select pre-qualified, off-the-shelf components to aid in complete system design.

LED Spectrum Mixer

Calculate the color (white or color) that will be achieved by combining different LEDs into one application

System Calculator

Calculate the overall system performance based on design inputs.

LM-80 Reports

Generate LM-80 reports for specific Lumileds LEDs.

Company Information

Philips Lumileds is a leading provider of LEDs for everyday lighting applications. The company's records for light output, efficacy and thermal management are direct results of the ongoing commitment to advancing solid-state lighting technology and enabling lighting solutions that are more environmentally friendly, help reduce CO₂ emissions and reduce the need for power plant expansion. Philips Lumileds LUXEON® LEDs are enabling never before possible applications in outdoor lighting, shop lighting, home lighting, digital imaging, display and automotive lighting.

Philips Lumileds is a fully integrated supplier, producing core LED material in all three base colors, (Red, Green, Blue) and white. Philips Lumileds has R&D centers in San Jose, California and in the Netherlands, and production capabilities in San Jose, Singapore and Penang, Malaysia. Founded in 1999, Philips Lumileds is the high flux LED technology leader and is dedicated to bridging the gap between solid-state technology and the lighting world. More information about the company's LUXEON LED products and solid-state lighting technologies can be found at www.philipslumileds.com.
