

Product Change Notice

To: All concerned

From: Antonio Beasain

Date: 28/02/2014 update

Nº Pages: 1

PCN Ref Nº: PT-15 V with improved (flanged) collector

The collector for the PT-15 V model has been redesigned to include a flange near the rotor's hole. This change affords significant improvements in terms of rotational feeling and improved torque & hysteresis. All other product's specifications remain unaffected.

Affected parts, images, drawing and/or specification numbers are listed on this document. In case of any further questions about this change, please contact us.

INVOLVED ARTICLES: All PT-15 V models **except V18 and V24**

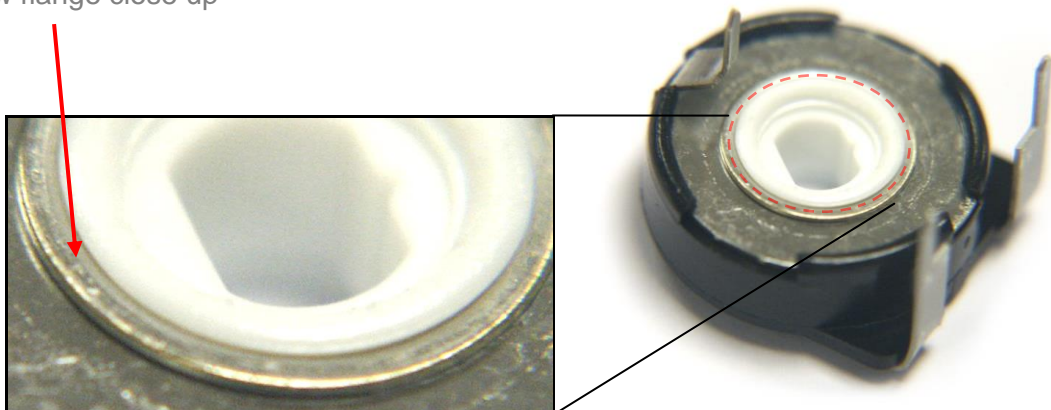

REASONS FOR CHANGE: Improved rotational feeling. More homogeneous torque.
Improved hysteresis.

SAMPLES AVAILABILITY DATE: 01-03-2014 for linear taper 10K/100K models and rotors L and N. Others upon request (custom drawing).

FIRST DATE TO SHIP CHANGED PARTS: 1st July, 2014

LAST DATE FOR MIXED SHIPMENTS: till remaining stocks for old parts are finished.

New flange close up

Best Regards,
