

Educational Promotion Terms & Conditions

B&K Precision and Mouser Electronics are committed to supporting the educational and training needs of students to prepare them for tomorrow's careers in electronics and engineering. B&K Precision instruments have long been associated with high quality and exceptional prices.

Educational institutions can qualify for a 10% promotional discount in addition to the everyday value already being offered by B&K Precision. The promotion is valid on all B&K Precision instruments currently available through Mouser Electronics. To take advantage of this promotional offer today, contact Mouser Electronics by phone at 800-346-6873 or shop in the B&K Precision store online at <http://www.mouser.com/bk/>.

1. Educational institutions, public or private, including K-12 institutions, vocational schools, colleges and universities) are eligible for a promotional discount of 10% off the current B&K Precision list price on purchases of \$5,000 or more.
2. The promotional discount is valid on purchases of any current model (refer to B&K Precision price sheet or website) and of any desired quantity so long as the minimum purchase amount of \$5,000 has been satisfied. The purchases will be totaled based on current B&K Precision list prices. Qualifying B&K Precision products must be purchased in a consolidated manner, i.e. a one-time >\$5,000 purchase on a single invoice.
3. Accessories including probes, test leads, interface cables, and refurbished equipment, extended warranties, and calibration are not eligible to receive this promotional discount.
4. B&K Precision reserves the right to modify or discontinue this offering at any time during the promotional period.
5. This educational promotion supersedes all prior promotions and cannot be combined with any other B&K Precision offer, program, or discount. B&K Precision's preapproval is required.
