

Sample Kit 2010

Ceramic Transient Voltage Suppressors (CTVS)

for ESD and High Transient Voltage Protection in
Car Entertainment and Infotainment Applications

What are CTVS?

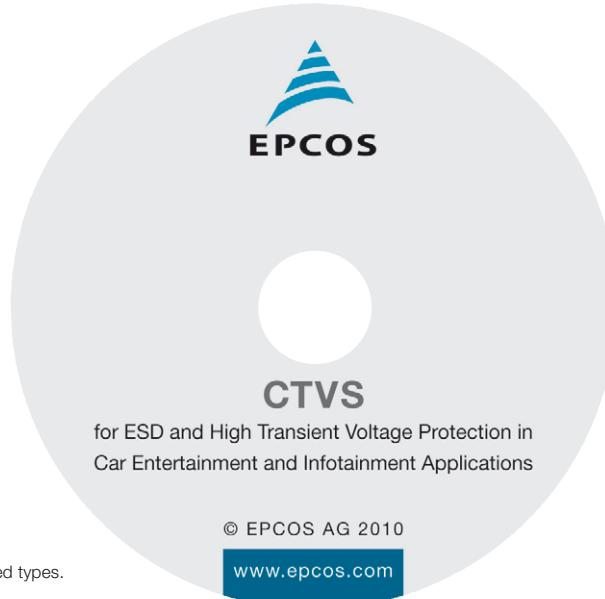

- CTVS are multilayer semiconductor ceramic components for ESD protection of data lines (USB, audio, video, etc.) and bus systems (LIN, CAN, MOST, FlexRay, etc.) and for high energy transient protection (e.g. load dump and jump start) in electronic devices.
- CTVS are able to replace semiconductor diodes such as Zener and TVS and offer advantages regarding cost and technology.

Benefits for customer applications

- Bidirectional protection for ESD and high energy transients
- High ESD stability to IEC 61000-4-2, level 4 and ISO10605
- No temperature derating up to 85 °C / 125 °C (depending on type)
- Low capacitance types for high-speed data lines and bus systems (e.g. LIN, CAN, FlexRay, MOST)
- Jump start and load dump protection to ISO 7637 for case sizes 1210 and 2220
- Use of parasitic capacitance for RFI suppression and RF filtering (replacement of additional MLCC)

Qualification

- Case sizes 0805, 1210, 2220 qualified based on AEC-Q200, Rev. C
- Case sizes 0402, 0603 and arrays qualified based on EPCOS standard qualification program¹⁾
- ESD protection according to IEC61000-4-2, level 4 (8 kV contact and 15 kV air discharge; all components) and ISO10605 (for single case sizes \geq 0603)

¹⁾ Case size 0603 qualified based on AEC-Q200, Rev. C on request for selected types.

¹⁾ Breakdown voltage $V_{BR} =$ Varistor voltage V_V ; tolerances see data sheet on CD-ROM

²⁾ Qualified based on AEC-Q200, Rev. C

³⁾ Load dump and jump start capability: W_{max} (2 ms) = 0.3 J, W_{LD} (10 pulses) = 1 J, V_{jump} (5 min) = 29 V

⁴⁾ Load dump and jump start capability: W_{max} (2 ms) = 1.6 J, W_{LD} (10 pulses) = 3 J, V_{jump} (5 min) = 24.5 V

⁵⁾ Load dump and jump start capability: W_{max} (2 ms) = 5.8 J, W_{LD} (10 pulses) = 25 J, V_{jump} (5 min) = 24.5 V

⁶⁾ Qualification based on AEC-Q200, Rev. C on request

⁷⁾ For maximum capacitance see data sheet on CD-ROM.

See enclosed CD-ROM for data sheets and further details.
