Mouser Electronics First to Stock Murata Power Solutions New OKL Series

Murata Power Solutions expands Okami products which include Okami OKL-T/3-W12 series of adjustable output 3A LGA-SMT PoLs and new offerings in the OKY series

Mansfield, Texas, USA – May 20, 2009 – [Mouser Electronics](http://www.mouser.com), Inc., known for its rapid introduction of the newest products, today announced it has expanded its [Murata Power Solutions](http://www.mouser.com) Okami products to include the brand new OKL Series, as well as an expansion of the OKY series. Murata Power Solutions products include the world's broadest range of medium- to high-power DC/DC converters.

Mouser's current stock of Okami parts from Murata includes the OKY and OKX Series and now includes the new OKL Series. The OKL-T/3-W12 Series are miniature non-isolated Point-of-Load (POL) DC/DC power converters for embedded applications. The tiny form factor is configured on a Land Grid Array (LGA) assembly measuring only 0.488 x 0.488 x 0.22 inches (12.4 x 12.4 x 5.6mm). Features include a wide input range of 4.5 to 14Vdc, a maximum output current of 3Amps, a programmable output voltage from 0.591-5.5Vdc, and drives 1000µF ceramic capacitive loads.

The Okami OKL Series boasts outstanding thermal derating performance, high power conversion efficiency of 93%, and over-temperature and over-current protection. Barry McConnell, Mouser Senior Vice President of Products, says, "The new Okami OKL Series of DC/DC converters are ideal for powering CPUs, datacom/telecom systems, distributed bus architectures (DBA), programmable logic and mixed voltage systems."

Mouser's expansion of the OKY series includes the OKY-T/10-D12 and OKY-T/16-D12 series of adjustable DOSA-SMT 10- and 16-Amp DC/DC Converters. To learn more about the Okami OKL, OKY, and OKX Series, visit http://www.mouser.com/Datel_Murata_Okami.

Known for its broad-based product line, unsurpassed customer service, and streamlined warehouse operations, Mouser continuously offers customers the most innovative products and latest technologies for their new design projects.

Mouser Electronics is the only major distributor to publish a new 2,184+ page print catalog every 90 days. In addition, its website with interactive online catalog is updated daily, contains more than a million products for easy online purchase, provides over 1.5 million cross-references, as well as more than 900,000 downloadable data sheets, supplier-specific reference designs, application notes, and other technical design information.

About Mouser

Mouser Electronics, Inc. is an electronic component distributor, focused on the rapid introduction of new products and technologies to electronic design engineers. Mouser.com features more than a million products online from more than 390 manufacturers. Mouser's 2,184+ page catalog is published every 90 days, providing designers with up-to-date data on the components now available for the next generation of electronic devices. Mouser ships globally to over 280,000 customers in 170 countries from its 432,000 sq. ft. state-of-the-art facility in Mansfield, Texas. For more information, visit <http://www.mouser.com>

About Murata Power Solutions

DATEL products from Murata Power Solutions include the world's broadest range of medium- to high-power DC/DC converters. Features include isolated/non-isolated, single to quad outputs, output voltages from 0.8V to 72V, and output currents to 150A. Additional products include digital panel meters and data acquisition devices. For more information, visit <http://www.murata-ps.com/>.
