Mouser Delivers the Smallest BNC in the Industry from Amphenol RF

Mansfield, Texas, USA – November 30, 2010 – [Mouser Electronics, Inc.](#), known for its rapid introduction of the newest electronic components and technologies, today announced it is stocking new Amphenol RF HD (High Density) BNC Connectors and Adapters. [Amphenol RF](#) is a world leader in the design, manufacture, and supply of RF connector systems.

The Amphenol RF HD-BNC Connectors and Adapters are the smallest BNC in the industry - 51% smaller than the BNC and 39% smaller than the Mini-BNC - allowing for four times the density as the standard BNC. The bayonet coupling guarantees a positive lock and allows for quick and easy connects and disconnects. Providing true 75Ω impedance, adopting the SMPTE Compliant Amphenol RF HD-BNC Connectors and Adapters will be seamless due to having the same cable prep and termination specifications of traditional BNC connectors. Applications include networking routing and switching, telco central office, DS3/DS4, broadcast, digital video (HDTV), custom cable assemblies, instrumentation, Mil/Aero, medical equipment, and satellite headends. To learn more, visit <http://www.mouser.com/amphenolhdbnc/>.

Krystal Jackson, Mouser Vice President of Interconnects, states, “Amphenol RF’s HD-BNC offers high density connections targeted to a high definition world The design engineer is able to pack more sophisticated power into the board through the extremely rugged, HD-BNC connector’s smaller footprint.”

With its broad product line and unsurpassed customer service, Mouser offers customers the latest, most technologically advanced components for their newest design projects. Mouser Electronics' website is updated daily and searches over 6.7 million products to locate over 1.8 million orderable part numbers available for easy online purchase. Mouser.com also houses an industry-first interactive catalog, data sheets, supplier-specific reference designs, application notes, technical design information, and engineering tools.

About Mouser

Mouser Electronics, Inc. is an electronic component distributor, focused on the rapid introduction of the newest products and technologies to electronic design engineers. Mouser.com features more than a million products online from more than 400 manufacturers. Mouser publishes multiple catalogs per year providing designers with up-to-date data on the components now available for the next generation of electronic devices. Mouser ships globally to over 280,000 customers in 170 countries from its 492,000 sq. ft. state-of-the-art facility in Mansfield, Texas. For more information, visit <http://www.mouser.com>.

About Amphenol RF

Amphenol RF is the world leader in the design, manufacture and supply of RF connector systems for the automotive, broadband, instrumentation, internet, military/aerospace and wireless infrastructure markets. With the combination of their global footprint and experience extending over a half-century, Amphenol RF is your RF Global Solutions Provider for the 21st Century. Visit <http://www.amphenolrf.com/>.
