Mouser Stocking Digi International XBee-PRO® ZB Programmable Modules *Program Directly to XBee Module via Built-in Processor*

Mansfield, Texas, USA – August 3, 2010 – [Mouser Electronics](http://www.mouser.com), Inc., known for its rapid introduction of the newest products, today announced it is stocking the [Digi International](http://www.digichip.com) XBee-PRO® ZB Programmable Modules.

Digi International XBee-PRO® ZB Programmable Modules make customizing ZigBee applications easy because a built-in processor enables the customization separate from the RF code. Programming directly on the Digi International XBee-PRO ZB Programmable Modules eliminates the need for a separate processor. Because the wireless software is isolated, applications can be developed using Digi International XBee-PRO Programmable Modules with no risk to RF performance or security. XBee-PRO ZB embedded RF modules provide cost-effective wireless connectivity to devices in ZigBee mesh networks. The XBee-PRO ZB Programmable Dev Kit (XBP24-BZTB-DK) makes it easy to develop designs using XBee-PRO ZB Programmable Modules. [Learn more](#)

Known for its focus on design engineers with its broad product line, unsurpassed customer service, advanced on-line catalog and innovative product marketing, Mouser continuously offers customers the newest products and latest technologies for their new design projects.

Mouser Electronics' website with interactive online catalog is updated daily and searches over 6.7 million products to locate over a 1.6 million part numbers available for easy online purchase. Plus, it houses downloadable data sheets, supplier-specific reference designs, application notes, technical design information and engineering tools.

About Mouser

Mouser Electronics, Inc. is an electronic component distributor, focused on the rapid introduction of new products and technologies to electronic design engineers. Mouser.com features more than 1.6 million products online from more than 400 manufacturers. Mouser publishes multiple catalogs per year providing designers with up-to-date data on the components now available for the next generation of electronic devices. Mouser ships globally to over 270,000 customers in 170 countries from its 432,000 sq. ft. state-of-the-art facility in Mansfield, Texas. For more information, visit <http://www.mouser.com>.

About Digi International

Digi International offers innovative products and technologies that enable you to connect and manage serial, USB, and other electronic devices locally, remotely, over the network or via the web. Digi International makes device networking easy by developing products and technologies that are cost-effective and easy to use. Visit <http://www.digi.com/>.
