## **Mouser Stocks Next Generation HARTING Connector System - Han-Yellock®**

**Mansfield, Texas, USA – September 16, 2010 – [Mouser Electronics](http://www.mouser.com), Inc.**, known for its rapid introduction of the newest electronic components and technologies, today announced it is stocking [HARTING](http://www.harting.com)'s Han-Yellock® Connector System.

Mouser is stocking the entire HARTING Han-Yellock® Connector System, a new product series which retains the core functionality of the respected Han® connector line and offers significant differences in size and shape to improve functionality. HARTING 's Han-Yellock® Connector System interface consists of a housing, bulkhead mounting on the housing side and a carrier hood with cover on the cable side. The system can be used with a variety of insulators and contact inserts in order to establish an interface. Han-Yellock modules require only male crimp contacts. Learn more at <http://www.mouser.com/hartinghanyellock/>.

With its broad product line and unsurpassed customer service, Mouser offers customers the latest, most technologically advanced components for their newest design projects. Mouser Electronics' website is updated daily and searches over 6.7 million products to locate over 1.7 million orderable part numbers available for easy online purchase. Mouser.com also houses an industry-first interactive catalog, data sheets, supplier-specific reference designs, application notes, technical design information, and engineering tools.
