**For Immediate Release**

**Honeywell's Zephyr™ Airflow Sensors Deliver the Industry's Most Accurate Airflow Reading – Available Now from Mouser**

**Mansfield, Texas, USA – July 6, 2010** – [Mouser Electronics](http://www.mouser.com), Inc., known for its rapid introduction of the newest products, today announced it is stocking the [Honeywell](http://www.honeywell.com) Zephyr™ Digital Airflow Sensors, HAF Series (High Accuracy) that provide the industry's most accurate measurement – within 2.5%.

The Honeywell Zephyr™ Digital Airflow Sensors: HAF Series provide very precise measurements of airflow (or absence of airflow) and other non-corrosive gases in medical and industrial applications. The HAF Series (High Accuracy) Sensors feature high stability to reduce errors due to thermal effects and null shift to provide accurate readings over time. The high stability often eliminates the need for system calibration after PCB mounting and periodically again over time. The Honeywell Zephyr Digital Airflow Sensors: HAF Series (High Accuracy) offer enhanced reliability, digital accuracy, and repeatable measurements. The combination of rugged housings with a stable substrate makes these sensors extremely robust and the sensors meet ISO 9001 standards. To learn more, visit

<http://www.mouser.com/honeywellzephyrhaf/>.

Keith Privett, Mouser's Vice President of IEP and Test, comments on the new Honeywell Zephyr, "The fully calibrated and temperature compensated Zephyr HAF Series allows design engineers to remove additional components associated with signal conditioning, thereby reducing PBC size and the costs associated. Mouser's introduction of the Honeywell Zephyr HAF Series fits perfectly into Mouser's goal to rapidly provide new, innovative products to assist in the prototype process."

Known for its focus on design engineers with its broad product line, unsurpassed customer service, advanced on-line catalog and innovative product marketing, Mouser continuously offers customers the newest products and latest technologies for their new design projects.

Mouser Electronics' website with interactive online catalog is updated daily and searches over 6.7 million products to locate over a 1.6 million part numbers available for easy online purchase. Plus, it houses downloadable data sheets, supplier-specific reference designs, application notes, technical design information and engineering tools.

#### **About Mouser**

Mouser Electronics, Inc. is an electronic component distributor, focused on the rapid introduction of new products and technologies to electronic design engineers. Mouser.com features more than 1.6 million products online from more than 400 manufacturers. Mouser publishes multiple catalogs per year providing designers with up-to-date data on the components now available for the next generation of electronic devices. Mouser ships globally to over 270,000 customers in 170 countries from its 432,000 sq. ft. state-of-the-art facility in Mansfield, Texas. For more information, visit <http://www.mouser.com>.

#### **About Honeywell Sensing and Control**

Honeywell International is a \$38 billion diversified technology and manufacturing leader, serving customers worldwide with aerospace products and services; control technologies for buildings, homes and industry; automotive products; turbochargers; and specialty materials. Based in Morris Township, N.J., Honeywell's shares are traded on the New York, London and Chicago Stock Exchanges. For additional information, please visit [www.honeywell.com](http://www.honeywell.com).
