Tyco Electronics' New SlimSeal SSL Connectors Available at Mouser - Ideal for Indoor/Outdoor LED Lighting

Mansfield, Texas, USA – June 24, 2010 – Mouser Electronics, Inc., known for its rapid introduction of the newest products, today announced it is stocking new product from Tyco Electronics.

Tyco Electronics' SlimSeal connectors are low profile, single row connectors developed for indoor and outdoor LED lighting applications. The SlimSeal SSL connectors provide low power, sealed solutions for free hanging, wire-to-wire interconnects and for robust, stable electrical and mechanical wire-to-board connections used in solid state lighting.

The SlimSeal SSL connector maintains an IP67 seal rating -- making it suitable for indoor and outdoor residential, commercial and architectural applications that are exposed to wet environments. Key features include UV-resistant wire-to-wire and wire-to-board configurations, SMT and thru-hole headers, positive integral latching and pre-assembled seals. The polarized connector -- available in two, three and four positions -- accepts 18 through 24 AWG stranded wire. Learn more

Known for its focus on design engineers with its broad product line, unsurpassed customer service, advanced on-line catalog and innovative product marketing, Mouser continuously offers customers the newest products and latest technologies for their new design projects.

Mouser Electronics' website with interactive online catalog is updated daily and searches over 6.7 million products to locate over a 1.6 million part numbers available for easy online purchase. Plus, it houses downloadable data sheets, supplier-specific reference designs, application notes, technical design information and engineering tools.
