Mouser Electronics Signs Global Distribution Agreement with California Micro Devices

Inventory Includes Analog and Mixed-Signal Semiconductor Products

Mansfield, Texas, USA – October 22, 2007 – [Mouser Electronics, Inc.](http://www.mouser.com), known for its rapid introduction of the newest products, today announced it has signed a global distribution agreement with [California Micro Devices](http://www.cmd.com) (CMD), a leading supplier of application-specific analog and mixed signal semiconductor products for the mobile handset, digital consumer electronics, and personal computer markets.

Mouser will stock CMD's Praetorian® ESD/EMI protection devices, PicoGuard™ low capacitance ESD devices, MediaGuard™ HDMI protection devices, as well as other CMD products.

"We are very excited about partnering with Mouser Electronics because of their excellent service, excellent product availability with no minimum order requirement and their ability to quickly reach a broad range of customers," said David Casey, CMD vice president of sales. "Their ability to rapidly introduce new products and technologies to design engineers is unmatched."

According to Mike Scott, Mouser Vice President of Active Products, the distribution agreement with California Micro Devices capitalizes on Mouser's core competencies of rapid product introduction, extensive stocking, and promotion of the newest products to the design engineering community.

"We are pleased to add California Micro Devices' prestigious brand of innovative circuit protection products to our linecard," Scott said, "allowing us to continue delivering our customers a faster time-to-market for their new design projects."

Mouser's broad-based product line, unsurpassed customer service, and streamlined warehouse operations make the distributor the design engineer's one-stop shop for all the components and associated development tools necessary for total project design.
