Mouser Electronics Announces Second of Four 2006 New Components Catalogs Now Available

Mansfield, Texas, USA – May 22, 2006 – Mouser Electronics, the fastest growing catalog distributor in the electronics industry, announced today that its second catalog of 2006 was released on May 1, 2006. Catalog No. 626 features 1,732 pages of the newest products and latest technologies from well over 300 premiere electronic component suppliers.

Mouser Electronics is the **only** distributor in the industry to publish a new catalog **every 90 days**. Due to the constant evolution of new products, new technologies, as well as new applications for existing products, there is a continuous expansion of catalog pages. This latest catalog contains 55 additional pages of new product information. In addition, 31 pages of end-of-life products were deleted. New colored banners and logos help to easily identify new products, new technologies, and new suppliers.

New product and new technology pages consisted of components from new suppliers including Texas Instruments, ISSI (Integrated Silicon Solution Inc.), PLX Technology, Power Integration, Luminary Micro, and SimpleTech, in addition to other new products from Freescale, AVX, Amphenol, Fluke, Molex, Murata, Clare, Digi International, NetPower, Quickfilter Technologies, FCI, Sharp Microelectronics, and many more suppliers.

"Mouser excels at supplying **the newest products first** so our engineering customers can quickly satisfy the demands of their latest innovations," said Mouser President & CEO Glenn Smith. "By publishing a brand new catalog every 90 days along with daily updates to our online catalog, we give our customers a time-to-market advantage that no other distributor in the industry can offer."

-- continued --

With an annual circulation of over one million and a quarterly mailing of 250,000, the new catalog contains more than 135,000 products and is designed to work in concert with Mouser’s online catalog, now featuring more than 660,000 products easily bought online, over 480,000 downloadable data sheets, in excess of 1.5 million cross-references, with global shipment to 194 countries.

“Mouser is dedicated to being the **first** to deliver the newest products and technologies to our customers,” Smith said, “as well as the best technical customer service possible – regardless of the size of the customer or the size of the order.”

Mouser is well-known for its outstanding customer service and support for well over 100,000 business accounts. The company’s streamlined process includes excellent technical support, no minimums, and same-day shipping on most orders received from 7 am – 8 pm Central Standard Time.
