Mouser Electronics Releases First 2008 Quarterly New Product Catalog

Catalog #633 Features 151 Pages of New Products and 18 New Suppliers

Mansfield, Texas, USA –February 20, 2008 – [Mouser Electronics, Inc.](http://www.mouser.com), known for its rapid introduction of the newest products, today announced the first of four quarterly new product catalogs in 2008 is now available. [Catalog #633](#) (February – May) features 2,112 pages of the newest products and technologies from over 335 premiere electronic component suppliers.

Engineered as a reference guide for engineers, Catalog 633 contains 151 pages of new products while 23 pages of not-for-new-design products were deleted, thus ensuring design engineers access to the latest, most up-to-date products available for their new design projects.

This latest edition includes pages of new products and technologies from suppliers across the board including Texas Instruments, Microchip, Cypress, Fairchild, Omron, Bourns, Molex, Vishay, Tyco, KEMET, and numerous other suppliers. Catalog 633 also features products from 18 new suppliers including NXP Semiconductors, Toshiba, Panasonic Electric Works, and many more.

“Mouser excels at rapid new product introduction so our engineering customers can quickly integrate the newest technology in their new designs,” said Mouser President & CEO Glenn Smith. “By publishing a brand new print catalog every 90 days and updating our interactive online catalog daily, we give our customers a time-to-market advantage that no other distributor in the industry offers.”

Mouser Electronics is the only major distributor in the industry to publish a new catalog every 90 days. Due to the constant evolution of new products, new technologies, and new applications for existing products, Mouser’s catalog makes it easy to quickly find the latest product information. Colored logos and banners easily identify new products, new technologies, and new suppliers; while four-color, heavy stock section guides aid in quick identification of product categories.
