Mouser and Comair Rotron Ink Global Distribution Agreement

Mouser to Stock Heat Sinks, Fans, and Blowers

Mansfield, Texas, USA – June 11, 2007 – Mouser Electronics, Inc., known for its rapid introduction of the newest products, today announced it has signed a global distribution agreement with Comair Rotron, a leading designer and manufacturer of thermal management products. Mouser will stock the manufacturer's heat sink products, AC/DC fans, and blowers.

"With the addition of Comair Rotron's heat sink product line, as well as new fans and blowers launching this year, Mouser's focus of getting new products into the marketplace faster than anyone else is an exciting addition to our distribution network," according to Gina Rendon, Comair Rotron's Global Distribution Manager. "This global partnership with Mouser fits nicely with our strategy of increasing our global presence as a premier thermal solutions provider."

According to Barry McConnell, Vice President of Product Marketing, the distributor is known for its rapid introduction of new product solutions to design engineers.

"Adding Comair Rotron to the Mouser linecard enhances our thermal management product offering and allows us to honor our commitment to deliver high quality, innovative products to the design engineering community," McConnell said.

Mouser's broad-based product line, unsurpassed customer service, and streamlined warehouse operations make Mouser the design engineer's one-stop shop for all the board-level components and associated development tools necessary for total project design.

Mouser Electronics, the fastest growing catalog distributor in the electronics industry, is the only major distributor to publish a new 1,850+ print catalog every 90 days. In addition, its website is updated daily and has over 825,000 products available for easy online purchase 24 hours a day. Mouser.com also provides more than 677,000 downloadable data sheets and over 1.5 million cross-references.
