Mouser Electronics and DeLorme Reach Distribution Agreement

Stock includes GPS receiver module and evaluation kit

Mansfield, Texas, USA – January 12, 2009 – [Mouser Electronics](http://www.mouser.com), Inc., known for its rapid introduction of the newest products, today announced it has reached a distribution agreement with [DeLorme](http://www.delorme.com), a pioneering technological innovator with a stellar reputation as a leader of mapping and GPS products.

Mouser's DeLorme portfolio includes the GPS receiver GPS2058-10, a compact high performance module with complete GPS firmware for all navigation applications that require no need of external memories. In addition, Mouser is stocking the GPS2058 module evaluation kit that provides a complete hardware and software platform to test and evaluate the GPS module.

"DeLorme is excited to partner with Mouser Electronics for support of our mutual customers" said Brian Stearns, DeLorme GPS Module Product Manager. "Mouser provides a valuable service to the design community with their catalog and online product ordering, supporting our customers development needs and accelerating the design win process."

Mike Scott, Mouser's Vice President of Active Products, is pleased to include DeLorme in Mouser's linecard. "The DeLorme brand is respected by designers. Their expertise and modular formats allow engineers to adopt GPS navigation into their designs without becoming experts themselves."

Known for its broad-based product line, unsurpassed customer service, and streamlined warehouse operations, Mouser continuously offers customers the most innovative products and latest technologies for their new design projects.
