Mouser Now Stocking Delphi Connection Systems

Partnership Provides Customers Access to Innovative Commercial Connector Products

Mansfield, Texas, USA – June 4, 2007 – Mouser Electronics, Inc., known for its rapid introduction of the newest products, today announced it is now stocking commercial connector products from Delphi, a leading manufacturer of electrical and electronic connection systems.

Mouser currently stocks sealed/unsealed terminals and connectors, as well as a broad range of accessories including locks, tools, clips, and more. Additional product will be added as new product introductions occur.

“We are excited about our partnership with TTI and their subsidiary, Mouser Electronics,” said Pete Nash, account manager for DCS. “Mouser’s reputation for rapid new product introduction, coupled with TTI’s exceptional service as the world’s leading passive and connector specialist will allow us to support Delphi customers from the introduction to production stages in the design cycle.”

According to Barry McConnell, Mouser Vice President of Product Marketing, the distributor is focused on rapid introduction of the newest product solutions to design engineering challenges.

“We are very pleased to be stocking Delphi’s products,” McConnell said. “Our unique business model will ensure fast delivery of Delphi’s innovative new products to the engineering community.”

Mouser supports engineers in the earliest stages of the design cycle with no minimum order size, breaking packs for orders as small as one piece, and same-day shipping for fast delivery on most orders received from 7 am – 8 pm Central Standard Time.

As the fastest growing catalog distributor in the electronics industry, Mouser is the only major distributor to publish a new 1,800+ print catalog every 90 days. In addition, its website is updated daily and features more than 825,000 available products for easy online purchase 24 hours a day.
