Mouser Electronics Named #1 Distributor in 2007 Sales Growth by Harwin *Harwin Recognizes Mouser as Fastest Growing Distributor in North America*

Mansfield, Texas, USA – June 28, 2007 – Mouser Electronics, Inc., known for its rapid introduction of the newest products, today announced it was named the number one distributor for North American sales growth by Harwin, a leading manufacturer of electronic interconnect solutions. The award is based on the largest increase in distribution sales in North America and recognizes Mouser's rapid growth rate with the supplier.

"Harwin believes Mouser's rapid growth is a direct result of their marketing focus that provides a direct path to design engineers and buyers," said Doug Steele, Harwin North American Distribution Manager. "Mouser's website and catalog give Harwin excellent market exposure. We're looking forward to a long and continuing partnership with Mouser."

"We are extremely pleased and honored to be named Harwin's #1 Distributor in 2007 Sales Growth," said Mouser President and CEO, Glenn Smith. "It's very gratifying to be recognized for our achievements and we especially appreciate the recognition from an industry leader like Harwin."

Smith went on to say that innovative products such as Harwin's, are key to the success of the distributor's rapid new product launch programs that deliver a time-to-market advantage for its design engineering customer base

Mouser's broad-based product line, unsurpassed customer service, and streamlined warehouse operations make the distributor the design engineer's one-stop shop for all the board-level components and associated development tools necessary for total project design.

As the fastest growing catalog distributor in the electronics industry, Mouser is the only major distributor to publish a new 1,850+ page print catalog every 90 days. In addition, its daily updated website contains over 845,000 products available for easy online purchase 24 hours a day, provides more than 677,000 downloadable data sheets, and over 1.5 million cross-references.
