Mouser Electronics to Distribute Infineon Technologies' Semiconductors and System Solutions

Mansfield, Texas, USA – February 25, 2008 – [Mouser Electronics, Inc.](http://www.mouser.com), known for its rapid introduction of the newest products, today announced it will distribute an extensive selection of semiconductors from [Infineon Technologies](http://www.infineon.com) (FSE/NYSE: IFX), a leading supplier of semiconductor and system solutions. Infineon Technologies' products address central challenges to modern society including energy efficiency, communications, and security.

Mouser will stock a variety of Infineon's products including microcontrollers, power management and circuit protection products, as well as discrete semiconductors, general purpose ICs, and silicon RF transistors.

"We are thrilled to further expand our distribution channel to Mouser Electronics," said Pierre Laboisie, vice president of distribution for Infineon Technologies North America. "We are confident Mouser's current engineering community will benefit from Infineon's wide range of products used for applications ranging in wireless to white goods and industrial applications."

According to Mike Scott, Mouser's Vice President of Active Products, distributing Infineon Technologies' products capitalizes on Mouser's core competencies of fast introduction, extensive stocking, and promotion of the newest products to the design engineering community.

"We are pleased to distribute Infineon Technologies' prestigious brand of semiconductor products," Scott said. "Our design engineering customers demand that Mouser be able to service their entire bill of material for their newest designs, and the addition of Infineon to our linecard, coupled with our innovative marketing and inventory programs adds a new dimension to our broad supplier portfolio."

Known for its broad-based product line, unsurpassed customer service, and streamlined warehouse operations, Mouser continuously offers customers the most innovative products and latest technologies for their new design projects.

Mouser Electronics is the only major distributor to publish a new 2,100+ page print catalog
