Mouser Electronics Now Stocking Molex SEARAY* Mezz Connectors ***Connectors developed for high-performance mezzanine connector market; data speeds from 10- to 12.5Gbps are stocked***

Mansfield, Texas, USA – July 15, 2009 – [Mouser Electronics](http://www.mouser.com), Inc., known for its rapid introduction of the newest products, today announced it is stocking the Molex SEARAY* 1.27mm mezzanine connectors. [Molex](http://www.molex.com) is one of the world's largest global manufacturers of interconnect products.

Mouser's stock includes the SEARAY* 1.27mm board-to-board mezzanine connector that was developed for the high-performance mezzanine connector market to accommodate low-profile applications not suitable for HD Mezz™ products. The SEARAY plugs and receptacles feature data rate speeds up to 10Gbps. For higher data speeds, the SEARAY Slim plugs and receptacles offer speeds up to 12.5Gbps. To learn more, visit http://www.mouser.com/molex_searay.

Barry McConnell, Mouser Senior Vice President of Products, states, "Mouser is pleased to add these high-performance, high-speed mezzanine connectors to the continually expanding Molex portfolio. Our design-engineer customers rely on Molex's continuous development of products to meet the needs of niche markets. They depend on that timely debut of new products and Mouser's time-to-market advantage to develop designs quickly and efficiently."

Known for its broad-based product line, unsurpassed customer service, and streamlined warehouse operations, Mouser continuously offers customers the most innovative products and latest technologies for their new design projects.

Mouser Electronics is the only global distributor to publish a new page print catalog every 90 days. In addition, its website with interactive online catalog is updated daily, and searches over 5 million products to locate over a million part numbers available for easy online purchase. Plus, downloadable data sheets, supplier-specific reference designs, application notes, technical design information and engineering tools.

The Newest Products For The Newest Designs

About Mouser

Mouser Electronics, Inc. is an electronic component distributor, focused on the rapid introduction of new products and technologies to electronic design engineers. Mouser.com features more than a million products online from more than 390 manufacturers. Mouser's 2,184+ page catalog is published every 90 days, providing designers with up-to-date data on the components now available for the next generation of electronic devices. Mouser ships globally to over 280,000 customers in 170 countries from its 432,000 sq. ft. state-of-the-art facility in Mansfield, Texas. For more information, visit www.mouser.com.

About Molex

Established in 1938, Molex is one of the world's largest global manufacturers of interconnect products. Molex creates innovative product solutions for wire-to-wire, wire-to-board, and board-to-board interconnect, including header, backplane, terminal, telecom, Ethernet, and cable, as well as application tooling. Molex's efforts to minimize the environmental impacts of business activities, products, and services are reflected in their commitment to their environment management system, ECO CARE.
