Mouser and RECOM Power Create Global Distribution Initiative

Mansfield, Texas, USA – April 27, 2011 – [Mouser Electronics](#), Inc., a top design engineering resource and global distributor for semiconductors and electronic components, today announced its worldwide distribution alliance with [RECOM Power](#), a pioneer in the manufacture and distribution of DC/DC and AC/DC converters, switching regulators, and LED drivers.

As an authorized distributor for RECOM Power, Mouser Electronics brings RECOM's comprehensive, cutting-edge series of DC/DC and AC/DC converters to customers worldwide, providing design engineers with an alternative to the time-consuming, costly venture of power system design. RECOM offers one of the largest selections of power conversion products on the market, including DC/DC and AC/DC converters in output power up to 60 watts, addressing the needs of a variety of vertical markets with wide operating temperature ranges and IEC 60601-1 compliant products for medical applications, as well as a broad range of switching regulators and LED drivers.

"Our partnership with RECOM Power is a promise of excellent things to come," states Keith Privett, Mouser Vice President of Electromechanical, Power & Test. "Our customers trust us to provide the latest in emerging technologies, and RECOM has given us a broad portfolio of products that embody the progressive spirit of technology today. Our partnership is a testament to our dynamic focus on What's Next, and we look forward to a bright future."

"RECOM Power is delighted to partner with Mouser Electronics as we deliver innovative, low wattage power and lighting solutions to our customers throughout the world," says Christoph Wolf, RECOM Power's Senior Executive Vice President.

With its broad product line and unsurpassed customer service, Mouser caters to design engineers and buyers with 17 global customer support locations, delivering What's Next in emerging technologies. Mouser offers customers the latest, most technologically advanced components for their newest design projects. Mouser Electronics' website is updated daily and searches more than 7.5 million products to locate over 1.9 million orderable part numbers available for easy online purchase. Mouser.com also houses an industry-first interactive catalog, data sheets, supplier-specific reference designs, application notes, technical design information, and engineering tools.

About Mouser Electronics

Mouser Electronics, a subsidiary of TTI, Inc., is part of Warren Buffett's Berkshire Hathaway family of companies. Mouser is an award-winning authorized semiconductor and electronic component distributor, focused on the rapid introduction of new products and technologies to electronic design engineers. Mouser.com features more than 1.9 million products online from more than 400 manufacturers. Mouser publishes multiple catalogs per year providing designers with up-to-date data on the components now available for the next generation of electronic devices. Mouser ships globally to over 300,000 customers in 170 countries from its 492,000 sq. ft. state-of-the-art facility south of Dallas, Texas. For more information, visit <http://www.mouser.com>.

About RECOM Power

RECOM Power has become an innovative leader over the past 35 years in the manufacture and distribution of DC/DC and AC/DC converters, switching regulators and LED drivers, offering vast distribution and customer support networks that reach around the globe. Customers recognize RECOM's ability to deliver top-notch products at competitive prices as well as their worldwide positioning through the establishment of proprietary production facilities that meet the highest international standards and global product availability. RECOM's commitment doesn't end with the purchase of the product, but rather, customers can enjoy exceptional after-sale service and support. For the past 10 years, RECOM has invested heavily in product development, quality assurance lab, and expanding their global presence to accomplish the mission of meeting customer need wherever it may arise.
