## Mouser Electronics and Tyco Electronics Power Systems, Inc. Enter Into Distribution Agreement

**Mansfield, Texas, USA – March 14, 2007** – Mouser Electronics, Inc., the only distributor to release a new catalog every 90 days, today announced it has signed a distribution agreement with Tyco Electronics Power Systems, Inc. to provide the company's leading-edge power solution products.

Tyco Electronics Power Systems is a leading global power solutions and components manufacturer whose products meet the demands of the computer, data networking, instrumentation, and industrial markets.

The addition of these innovative and highly reliable technology products will provide Mouser customers with additional choices of power components with superior design and engineering excellence.

"We are pleased to partner with Mouser Electronics," said Frank Cavallaro, Vice President, OEM Global Sales, Tyco Electronics Power Systems, Inc. "Their knowledge and experience will provide enhanced coverage for existing products and greatly increase customer exposure to our new products as we develop and introduce them into the market."

According to Barry McConnell, Mouser Vice President of Product Marketing, the addition of Tyco Electronics Power Systems enhances the selection of the newest power solution products available to the distributor's design engineering customer base.

"We are pleased to expand our association with such a strong industry leader," McConnell said. "We look forward to delivering Tyco's innovative power products to our engineering customers, as well as introducing their power systems components to our unique customer base."

Mouser's customers are comprised of diverse business accounts that represent a wide range of small, medium, and large companies; as well as individuals and engineering consultants who recommend, specify, and purchase board-level components for new product designs.

***The Newest Products For The Newest Designs***

The distributor's broad-based product line, unsurpassed customer service, and streamlined warehouse operations make Mouser the design engineer's one-stop shop for all the board-level components and associated development tools necessary for total project design.

Mouser Electronics, the fastest growing catalog distributor in the electronics industry, is the only distributor to publish a new 1,800+ print catalog every 90 days. In addition, its website is updated daily and has over 755,000 products available for easy online purchase 24 hours a day. Mouser.com also provides more than 640,000 downloadable data sheets and over 1.5 million cross-references.

### **About Mouser**

Mouser Electronics, Inc. is an electronic component distributor, focused on the rapid introduction of new products and technologies to electronic design engineers. Mouser.com features over 755,000 products online from more than 300 manufacturers. Mouser's 1,800+ page catalog is published every 90 days, providing designers with up-to-date data on the components now available for the next generation of electronic devices. Mouser ships globally to over 280,000 customers in 170 countries from its 432,000 sq. ft. state-of-the-art facility in Mansfield, Texas.
