Mouser Electronics and Walsin Sign Global Distribution Agreement *Customer's Gain Access to Variety of RF High-Frequency Components*

Mansfield, Texas, USA – November 19, 2008 – [Mouser Electronics](http://www.mouser.com), Inc., known for its rapid introduction of the newest products, today announced it has signed a global distribution agreement with [Walsin](http://www.walsin.com), a leading supplier of passive components.

Mouser's Walsin product portfolio includes RF high-frequency components including antennas, band pass filters, baluns, balance filters, common mode filters, and diplexers.

"Walsin Technology Corporation (Taiwan) is pleased to be entering into a distributor agreement with Mouser Electronics to distribute our line of RF High Frequency components," said Peter Chu, CEO Walsin Technology Corporation. "As a global leader in the manufacture of passive components, we feel that we should be aligned with a global leader like Mouser who supplies leading edge components to the design community. We look forward to a long-term and profitable relationship with Mouser."

According to Barry McConnell, Mouser's Vice President of Product Marketing, the distribution agreement with Walsin capitalizes on Mouser's core competencies of fast introduction, extensive stocking, and promotion of the newest products to the design engineering community.

"Adding Walsin to Mouser's linecard enhances our product offering and allows us to honor our commitment to deliver high-quality, innovative products to the design engineering community," McConnell said.

Known for its broad-based product line, unsurpassed customer service, and streamlined warehouse operations, Mouser continuously offers customers the most innovative products and latest technologies for their new design projects.
