Mouser is First to Stock the New 3M N7G24 Series CFast™ Card Connector!

Mansfield, Texas, USA — September 21, 2010 - Mouser Electronics, Inc., known for its rapid introduction of the newest products, today announced it is stocking new product from 3M Connector.

The 3M Connector for CFast™ Card, N7G24 Series, interfaces to the all-new high performance serial CFast™ flash memory card. CFast™ is the latest standard issued by the Compact Flash® Association and incorporates Serial ATA (SATA) performance into the established CompactFlash® form factor. The boardmount header is available in a low profile configuration, or with optional 2 mm standoffs that allow the designer to populate the board underneath an inserted card. Integral grounding clips discharge electro-static charge before the card mates with the connector, thereby protecting its sensitive electronic circuits. Extended guide rails reduce the possibility of misalignment during card installation and prevent the card from 'flying' out during ejection. Optional dual-push ejectors are available for the 3M™ Connector for CFast™ Card, N7G24 Series, providing two points of force against the card for even and smooth card removal. To learn more, visit <http://www.mouser.com/3Mcfast>.

Known for its focus on design engineers with its broad product line, unsurpassed customer service, advanced on-line catalog and innovative product marketing, Mouser continuously offers customers the newest products and latest technologies for their new design projects.

Mouser Electronics' website with interactive online catalog is updated daily and searches over 5 million products to locate over a million part numbers available for easy online purchase. Plus, it houses downloadable data sheets, supplier-specific reference designs, application notes, technical design information and engineering tools.

About Mouser

Mouser Electronics, Inc. is an electronic component distributor, focused on the rapid introduction of new products and technologies to electronic design engineers. Mouser.com features more than a million products online from more than 400 manufacturers. Mouser publishes multiple catalogs per year providing designers with up-to-date data on the components now available for the next generation of electronic devices. Mouser ships globally to over 270,000 customers in 170 countries from its 432,000 sq. ft. state-of-the-art facility in Mansfield, Texas. For more information, visit www.mouser.com.

About 3M Connector

3M Electronic Solutions Division designs, manufactures, and markets a wide variety of electronic interconnect products. 3M provides reliable and effective connector solutions for problems faced by electronic equipment manufacturers and assemblers serving the worldwide market.

The 3M manufacturing team has over 30 years experience in precision molding, stamping, assembling, and testing. 3M is committed to Six Sigma methodologies and uses ISO 9002 quality process standards to ensure our products meet specifications for long-term reliability. For more information, visit
