

## For Immediate Release

### **Power Up With Amphenol Industrial ePower Energy Storage Connectors!**

**September 23, 2011** - Mouser Electronics, Inc., regarded as a top design engineering resource and global distributor for semiconductors and electronic components, today announced it is stocking new product from Amphenol Industrial.

Amphenol Industrial designed the ePower Energy Storage Connectors for electrification programs in hybrid vehicles and drive systems that require compact connectors operating at high voltage and high amperage levels. The lightweight ePower Energy Storage Connectors feature Amphenol's patented RADSOK® technology for higher amperage, reduced T-rise, lower contact resistance, and easier mating. With a 40% smaller footprint than three EMI shielding cable glands and available in two- and three-pin power configurations ranging from 100 amps through 500 amps per contact, the ePower Energy Storage Connectors can accommodate two small gauge signal contacts for HVIL (high voltage interlock loop). Operating at 800-volts DC to 1,000-volts DC, the Amphenol Industrial ePower Energy Storage Connectors can be used in a variety of applications including power converters, hybrid electric vehicles, heavy equipment electrification, two-and three-phase motors and starter generators. With its broad product line and unsurpassed customer service, Mouser caters to design engineers and buyers by delivering What's Next in advanced technologies. Mouser offers customers 17 global support locations and the latest, most technologically advanced components for their newest design projects. Mouser Electronics' website is updated daily and searches more than 8 million products to locate over 2 million orderable part numbers available for easy online purchase. Mouser.com also houses an industry-first interactive catalog, data sheets, supplier-specific reference designs, application notes, technical design information, and engineering tools.

#### **About Mouser**

Mouser Electronics, a subsidiary of TTI, Inc., is part of Warren Buffett's Berkshire Hathaway family of companies. Mouser is an award-winning authorized semiconductor and electronic component distributor, focused on the rapid introduction of new products and technologies to electronic design engineers and buyers. Mouser.com features more than 2 million products online from more than 450 manufacturers. Mouser publishes multiple catalogs per year providing designers with up-to-date data on the components now available for the next generation of electronic devices. Mouser ships globally to over 300,000 customers in 170 countries from its 492,000 sq. ft. state-of-the-art facility south of Dallas, Texas. For more information, visit [www.mouser.com](http://www.mouser.com).

### **About Amphenol Industrial**

Amphenol Industrial offers a wide variety of receptacles, plugs, and connectors. Amphenol Industrial has long been the accepted leader in providing quality connectors and interconnect systems to the industrial markets and is the leading manufacturer of cylindrical connectors in the world. Most Amphenol Industrial Circular Connectors are in stock or assembled and ready to ship within 7 to 10 business days. For more information, visit <http://www.amphenol-industrial.com/>.

### **Trademarks**

Mouser and Mouser Electronics are registered trademarks of Mouser Electronics, Inc. All other products, logos, and company names mentioned herein may be trademarks of their respective owners.
