## Boost Your Signal and Your Business with the New Avago Technologies MGA-633P8 Low Noise Amplifier

**Mansfield, Texas, USA — April 01, 2010** - Mouser Electronics, Inc., known for its rapid introduction of the newest products, today announced it is stocking new product from Avago Technologies.

The Avago Technologies MGA-633P8 low noise amplifier (LNA) achieves low noise and high linearity through the use of an Avago Technologies proprietary 0.25um GaAs enhancement mode pHEMT process. The MGA-633P8 LNA is housed in a miniature 2.0 x 2.0 x 0.75mm<sup>3</sup> 8-pin QFN package. The Avago Technologies MGA-633P8 is designed for optimum use from 450 MHz up to 2 GHz. This Avago LNA is ideal for use in cellular infrastructure for GSM and CDMA.

Known for its focus on design engineers with its broad product line, unsurpassed customer service, advanced on-line catalog and innovative product marketing, Mouser continuously offers customers the newest products and latest technologies for their new design projects.

Mouser Electronics' website with interactive online catalog is updated daily and searches over 5 million products to locate over a million part numbers available for easy online purchase. Plus, it houses downloadable data sheets, supplier-specific reference designs, application notes, technical design information and engineering tools.

### About Mouser

Mouser Electronics, Inc. is an electronic component distributor, focused on the rapid introduction of new products and technologies to electronic design engineers. Mouser.com features more than a million products online from more than 400 manufacturers. Mouser publishes multiple catalogs per year providing designers with up-to-date data on the components now available for the next generation of electronic devices. Mouser ships globally to over 270,000 customers in 170 countries from its 432,000 sq. ft. state-of-the-art facility in Mansfield, Texas. For more information, visit [www.mouser.com](http://www.mouser.com).
