Bourns PortNote™ Solutions Circuit Protection Design Kits

Mansfield, Texas, USA — November 17, 2010 - Mouser Electronics, Inc., known for its rapid introduction of the newest products, today announced it is stocking new product from Bourns.

The Bourns PortNote™ Solutions Circuit Protection Design Kits are organized and focused on the protection of ports and their variations, rather than on product types. PortNote Kits are available for datacom, audio, video, and telecom solutions. Each kit contains enough Bourns products to build five of the PortNote Solution circuits. In addition, each Bourns PortNote™ Solutions Circuit Protection Design Kit provides a simple, single page with essential information to provide an effective solution known to work in most typical applications. Information provided includes objectives, part numbers, compliance, schematic, and much more.

To learn more, visit <http://www.mouser.com/bournsportnote>.

With its broad product line and unsurpassed customer service, Mouser offers customers the latest, most technologically advanced components for their newest design projects. Mouser Electronics' website is updated daily and searches over 6.7 million products to locate over 1.8 million orderable part numbers available for easy online purchase. Mouser.com also houses an industry-first interactive catalog, data sheets, supplier-specific reference designs, application notes, technical design information, and engineering tools.

About Mouser

Mouser Electronics, Inc. is an electronic component distributor, focused on the rapid introduction of the newest products and technologies to electronic design engineers. Mouser.com features more than a million products online from more than 400 manufacturers. Mouser publishes multiple catalogs per year providing designers with up-to-date data on the components now available for the next generation of electronic devices. Mouser ships globally to over 280,000 customers in 170 countries from its 492,000 sq. ft. state-of-the-art facility in Mansfield, Texas. For more information, visit www.mouser.com.

About Bourns

Since 1947, Bourns® has been a leading supplier of electronic components and integrated solutions. In 1952, Bourns introduced the world's first patented trimming potentiometer, the Trimpot®, and established themselves as an innovative manufacturer of trimming potentiometers, precision potentiometers, modular contacts, switches, resistor networks, panel controls, encoders, PPTC resettable fuses, and thyristor surge protectors, as well as gas discharge tubes (GDT), data line protectors, and chip diodes.

Bourns invests heavily in the development of technologies and the expansion of its manufacturing capabilities to meet customers' changing needs. Through this continuous investment, Bourns drives the trend toward component miniaturization. The company's commitment to quality is demonstrated in its manufacturing operations, which meet QS 9000, ISO 9001 / 2000 and TS 16949 certifications.
