CEL ZICM2410P0 MeshConnect™ Module

Mansfield, Texas, USA — July 15, 2009 - Mouser Electronics, Inc., known for its rapid introduction of the newest products, today announced it is stocking new product from CEL.

The CEL ZICM2410P0 MeshConnect™ module delivers market-leading RF performance and range with a very low cost design. The CEL ZICM2410P0 MeshConnect module is FCC, CE, and IC certified, which eliminates costly and time-consuming regulatory testing. The MeshConnect module features a built-in voice Codec with scalable, selectable data rates. The CEL ZICM2410P0 runs at 250Kbps, 500 Kbps, or a full 1 Mbps and enables higher speed applications and those requiring a burst of throughput at key times. This CEL device supports SNAP® technology, a simple-to-deploy wireless mesh network that creates auto-forming, multi-hop, mesh networks and enables over-the-air programming of devices. To learn more, visit <http://www.mouser.com/cel>.

Mouser Electronics is the only major distributor to publish a new 2,184+ page print catalog every 90 days. In addition, its website with interactive online catalog is updated daily, contains more than a million products for easy online purchase, provides over 1.5 million cross-references, as well as more than 900,000 downloadable data sheets, supplier-specific reference designs, application notes, and other technical design information.

About Mouser

Mouser Electronics, Inc. is an electronic component distributor, focused on the rapid introduction of new products and technologies to electronic design engineers. Mouser.com features more than a million products online from more than 390 manufacturers. Mouser's 2,184+ page catalog is published every 90 days, providing designers with up-to-date data on the components now available for the next generation of electronic devices. Mouser ships globally to over 280,000 customers in 170 countries from its 432,000 sq. ft. state-of-the-art facility in Mansfield, Texas. For more information, visit www.mouser.com.
