Mouser has CEL's Newest MeshConnect™ Modules with SNAP Software already installed!

Mansfield, Texas, USA — July 30, 2010 - Mouser Electronics, Inc., known for its rapid introduction of the newest products, today announced it is stocking new product from CEL.

CEL MeshConnect™ Modules and Extended Range Modules with SNAP™ come with the SNAP software tool installed. SNAP quickly establishes simple mesh networks with minimal development time. These CEL MeshConnect radio modules with SNAP leverage the advanced features of the MeshConnect IC, a ZigBee-compliant, single-chip solution. The CEL MeshConnect Extended Range Modules with SNAP add a power amplifier and low noise amplifier to increase range to over two miles - plus more reliable transmission and fewer nodes in your network.

To learn more, visit <http://www.mouser.com/cel>.

Known for its focus on design engineers with its broad product line, unsurpassed customer service, advanced on-line catalog and innovative product marketing, Mouser continuously offers customers the newest products and latest technologies for their new design projects.

Mouser Electronics' website with interactive online catalog is updated daily and searches over 5 million products to locate over a million part numbers available for easy online purchase. Plus, it houses downloadable data sheets, supplier-specific reference designs, application notes, technical design information and engineering tools.

About Mouser

Mouser Electronics, Inc. is an electronic component distributor, focused on the rapid introduction of new products and technologies to electronic design engineers. Mouser.com features more than a million products online from more than 400 manufacturers. Mouser publishes multiple catalogs per year providing designers with up-to-date data on the components now available for the next generation of electronic devices. Mouser ships globally to over 270,000 customers in 170 countries from its 432,000 sq. ft. state-of-the-art facility in Mansfield, Texas. For more information, visit www.mouser.com.

About CEL

CEL (California Eastern Laboratories) is an exclusive sales, marketing and development partner of NEC Electronics. CEL's 50-year alliance with NEC gives customers access to world-class technology and allows CEL to develop and manufacture high frequency solutions independent of NEC. CEL manufactures its own line of transceiver solutions for ZigBee networks. CEL's products include ZigBee / IEEE 802.15.4 Radio Modules and System-on-Chip (SoC) Transceivers.
