New Cooper Bussmann PolySurg Four-Channel ESD Suppressor in stock at Mouser.

Mansfield, Texas, USA — December 21, 2010 - Mouser Electronics, Inc., regarded as a top global engineering design resource for semiconductors and electronic components, today announced it is stocking new product from Cooper Bussmann.

The Cooper Bussmann PolySurg™ Four-Channel ESD Suppressor (42510ESDA-TR1) protects sensitive electronic circuits from ESD without distorting data signals. The SMT four-channel array provides protection through its ultra-low capacitance (0.1pF typical) that is well suited for HDMI ESD protection applications. The Halogen-free, lead-free, and RoHS compliant 42510ESDA-TR1 provides fast response time (<1ns), allowing equipment to pass the IEC 61000-4-2 Level 4 test. The Cooper Bussmann PolySurg™ Four-Channel ESD Suppressor is ideal for high speed signal interface applications, such as digital video equipment, mobile phones, GPS antenna, Bluetooth communication equipment antenna circuit, IEEE-1394, DVI, and HDMI. With its broad product line and unsurpassed customer service, Mouser caters to design engineers by delivering What's Next in emerging technologies. Mouser offers customers the latest, most technologically advanced components for their newest design projects. Mouser Electronics' website is updated daily and searches nearly 7 million products to locate over 1.8 million orderable part numbers available for easy online purchase. Mouser.com also houses an industry-first interactive catalog, data sheets, supplier-specific reference designs, application notes, technical design information, and engineering tools.

About Mouser

Part of Warren Buffett's Berkshire Hathaway, Inc., Mouser Electronics, Inc. is an award-winning semiconductor and electronic component distributor, focused on the rapid introduction of new products and emerging technologies to electronic design engineers. Mouser.com features more than 1.8 million products online from more than 400 manufacturers. Mouser publishes multiple catalogs per year providing designers with up-to-date data on the components now available for the next generation of electronic devices. Mouser ships globally to over 300,000 customers in 170 countries from its 492,000 sq. ft. state-of-the-art facility, located south of Dallas, Texas. For more information, visit www.mouser.com.

About Cooper Bussmann

Cooper Bussmann, a division of Cooper Industries, is one of the world's largest producers of circuit protection devices to protect electrical, electronic and automotive systems from circuit overload. The Cooper Bussmann provides the industry standard for circuit protection with over 41,000 fuse types, from large fuses for protecting the main supply in multi-story buildings and industrial complexes, to sophisticated fuses for printed circuit boards in electronic products. Through product development and a number of acquisitions Cooper Bussmann has become the market leader in fuse technology. For more information, visit <http://www.bussmann.com>.
