Cornell Dubilier Polypropylene Film Capacitors, Type 944U

Mansfield, Texas, USA — August 27, 2009 - Mouser Electronics, Inc., known for its rapid introduction of the newest products, today announced it is stocking new product from Cornell Dubilier.

The Cornell Dubilier 944U Type Polypropylene Film Capacitors are specifically designed for use in medium power DC filtering applications. The low inductance internal construction utilizes low loss metallized polypropylene for high ripple current capability. With capacitance ranges between 33 and 220 μ F and voltage ranges between 800 Vdc to 1400 Vdc, the Cornell Dubilier 944U Film Capacitors are housed in a rugged UL 94VO rated flame retardant plastic case and resin fill. The 944U Type Polypropylene Film Capacitors are ideal for the DC link in inverters and for DC output filters. To learn more, visit

Mouser Electronics is the only major distributor to publish a new 2,184+ page print catalog every 90 days. In addition, its website with interactive online catalog is updated daily, contains more than a million products for easy online purchase, provides over 1.5 million cross-references, as well as more than 900,000 downloadable data sheets, supplier-specific reference designs, application notes, and other technical design information.

About Mouser

Mouser Electronics, Inc. is an electronic component distributor, focused on the rapid introduction of new products and technologies to electronic design engineers. Mouser.com features more than a million products online from more than 390 manufacturers. Mouser's 2,184+ page catalog is published every 90 days, providing designers with up-to-date data on the components now available for the next generation of electronic devices. Mouser ships globally to over 280,000 customers in 170 countries from its 432,000 sq. ft. state-of-the-art facility in Mansfield, Texas. For more information, visit www.mouser.com.

About Cornell Dubilier

Cornell Dubilier is a leading manufacturer of capacitors for the electronic and power industries. The wide range of standard stocked capacitors is a springboard to the industry's best application engineering support. Cornell Dubilier capacitor categories include aluminum electrolytic, AC motor runs, AC motor starts, ceramic, DC film, mica capacitors, SMT capacitors, snubber modules, and tantalums. For more information, visit <http://www.cde.com>.
