Mouser Electronics is First to Stock the New Cymbet EnerChip[™] Thin-Film Batteries!

Mansfield, Texas, USA — May 20, 2010 - Mouser Electronics, Inc., known for its rapid introduction of the newest products, today announced it is stocking new product from Cymbet.

Cymbet EnerChip[™] solid-state, rechargeable thin-film batteries are a new innovation in energy storage and power management that provides energy storage in a form factor and with a convenience not previously attainable using conventional solutions such as lithium coin cells and super capacitors. The Cymbet EnerChip thin-film battery family is ideally suited for applications in which battery backup power is needed to maintain the settings of MCU memories, real-time clocks, and SRAM during power loss or power failures. These Cymbet EnerChip rechargeable thin-film batteries can provide back-up power ranging from a few hours to several weeks depending on the stand-by current requirements of the system. The EnerChip family includes the CBC012 12µAh thin-film battery, the CBC050 50µAh thin-film battery, the CBC3112 12µAh battery combined with Integrated Battery Management, and the CBC3150 50µAh battery combined with Integrated Battery Management.

Known for its focus on design engineers with its broad product line, unsurpassed customer service, advanced on-line catalog and innovative product marketing, Mouser continuously offers customers the newest products and latest technologies for their new design projects.

Mouser Electronics' website with interactive online catalog is updated daily and searches over 5 million products to locate over a million part numbers available for easy online purchase. Plus, it houses downloadable data sheets, supplier-specific reference designs, application notes, technical design information and engineering tools.

About Mouser

Mouser Electronics, Inc. is an electronic component distributor, focused on the rapid introduction of new products and technologies to electronic design engineers. Mouser.com features more than a million products online from more than 400 manufacturers. Mouser publishes multiple catalogs per year providing designers with up-to-date data on the components now available for the next generation of electronic devices. Mouser ships globally to over 270,000 customers in 170 countries from its 432,000 sq. ft. state-of-the-art facility in Mansfield, Texas. For more information, visit <u>www.mouser.com</u>.

About Cymbet

Cymbet Corporation is an industry leader in thin film battery technology and energy harvesting power management solutions. Cymbet has taken solid state, thin film battery technology concepts and materials and developed a family of commercial products intended to provide new, cost-effective alternative solutions for the electronics designer needing reliable, long lived, non-volatility for common semiconductors. Cymbet produces the EnerChip[™] solid-state, rechargeable thin film battery family, a new innovation in energy management and energy storage that provides innovative power storage solutions for many applications including power bridging, permanent power, and wireless sensors. For more information, visit http://www.cymbet.com/.
