For Immediate Release

Mouser Launches the New Cymbet CBC-EVAL-09 EP Universal Energy Harvester Eval Kit!

Mansfield, Texas, USA — March 25, 2011 - Mouser Electronics, Inc., regarded as a top global engineering design resource for semiconductors and electronic components, today announced it is stocking new product from Cymbet.

The Cymbet CBC-EVAL-09 EnerChip™ EP Universal Energy Harvester Evaluation Kit combines any one of multiple energy harvesting transducers with the EnerChip EP CBC915-ACA energy processor and the EnerChip CBC51100 100µAh solid state battery module. The purpose of the Cymbet CBC-EVAL-09 evaluation platform is to enable designers to quickly develop Energy Harvesting applications. The CBC-EVAL-09 includes a solar cell for initial evaluation kit testing. The Cymbet EnerChip EP Universal Energy Harvester Evaluation Kit accepts inputs from solar, piezoelectric, thermoelectric, or electromagnetic EH transducers and uses EnerChip Solid State Batteries for energy storage when the EH transducer is inactive.

With its broad product line and unsurpassed customer service, Mouser caters to design engineers and buyers by delivering What's Next in emerging technologies. Mouser offers customers the latest, most technologically advanced components for their newest design projects. Mouser Electronics' website is updated daily and searches nearly 7 million products to locate over 1.8 million orderable part numbers available for easy online purchase. Mouser.com also houses an industry-first interactive catalog, data sheets, supplier-specific reference designs, application notes, technical design information, and engineering tools.

About Mouser

Mouser Electronics, a subsidiary of TTI, Inc., is part of Warren Buffett's Berkshire Hathaway family of companies. Mouser is an award-winning authorized semiconductor and electronic component distributor, focused on the rapid introduction of new products and technologies to electronic design engineers and buyers. Mouser.com features more than 1.8 million products online from more than 400 manufacturers. Mouser publishes multiple catalogs per year providing designers with up-to-date data on the components now available for the next generation of electronic devices. Mouser ships globally to over 300,000 customers in 170 countries from its 492,000 sq. ft. state-of-the-art facility south of Dallas, Texas. For more information, visit www.mouser.com.

About Cymbet

Cymbet Corporation is an industry leader in thin film battery technology and energy harvesting power management solutions. Cymbet has taken solid state, thin film battery technology concepts and materials and developed a family of commercial products intended to provide new, cost-effective alternative solutions for the electronics designer needing reliable, long lived, non-volatility for common semiconductors. Cymbet produces the EnerChip™ solid-state, rechargeable thin film battery family, a new innovation in energy management and energy storage that provides innovative power storage solutions for many applications including power bridging, permanent power, and wireless sensors. For more information, visit <http://www.cymbet.com/>.
