## Mouser is Stocking the New IHLP 1212 Inductors from Vishay

**Mansfield, Texas, USA – April 29, 2010** – Mouser Electronics, Inc., known for its rapid introduction of the newest products, today announced it is stocking new product from Vishay.

The Vishay / Dale IHLP 1212 Series Low Profile, High Current Inductors feature a shielded construction with a frequency range up to 1.0 MHz that handles high transient current spikes without saturation. The Vishay / Dale IHLP 1212 Series Low Profile, High Current Inductors have the lowest DCR/ $\mu$ H in this package size. Due to the composite construction, the inductors have ultra low buzz noise. RoHS compliant to directive 2002/95/EC. [Learn more](#)

Known for its focus on design engineers with its broad product line, unsurpassed customer service, advanced on-line catalog and innovative product marketing, Mouser continuously offers customers the newest products and latest technologies for their new design projects.

Mouser Electronics' website with interactive online catalog is updated daily and searches over 5 million products to locate over a million part numbers available for easy online purchase. Plus, it houses downloadable data sheets, supplier-specific reference designs, application notes, technical design information and engineering tools.

### **About Mouser**

Mouser Electronics, Inc. is an electronic component distributor, focused on the rapid introduction of new products and technologies to electronic design engineers. Mouser.com features more than a million products online from more than 400 manufacturers. Mouser publishes multiple catalogs per year providing designers with up-to-date data on the components now available for the next generation of electronic devices. Mouser ships globally to over 270,000 customers in 170 countries from its 432,000 sq. ft. state-of-the-art facility in Mansfield, Texas. For more information, visit <http://www.mouser.com>.
