Murata Power Solutions has expanded the Okami™ OKX/OKY series and Mouser has stock!

Mansfield, Texas, USA — April 09, 2010 - Mouser Electronics, Inc., known for its rapid introduction of the newest products, today announced it is stocking new product from Datel / Murata.

Murata Power Solutions has expanded the Okami™ OKX/OKY series of PoL DC/DC converters to include 5V-in versions of both the 10A and 16A, the OKX-W5 and OKY-W5. They are available with negative or positive on/off control and the OKX2/OKY2 variants support the sequence/tracking feature. Murata Power Solutions Okami offers the OKY-W5 as SMT and the OKX-W5 as SIP. Applications include powering CPUs, datacom/telecom systems, programmable logic, and mixed voltage systems.

Known for its focus on design engineers with its broad product line, unsurpassed customer service, advanced on-line catalog and innovative product marketing, Mouser continuously offers customers the newest products and latest technologies for their new design projects.

Mouser Electronics' website with interactive online catalog is updated daily and searches over 5 million products to locate over a million part numbers available for easy online purchase. Plus, it houses downloadable data sheets, supplier-specific reference designs, application notes, technical design information and engineering tools.

About Mouser

Mouser Electronics, Inc. is an electronic component distributor, focused on the rapid introduction of new products and technologies to electronic design engineers. Mouser.com features more than a million products online from more than 400 manufacturers. Mouser publishes multiple catalogs per year providing designers with up-to-date data on the components now available for the next generation of electronic devices. Mouser ships globally to over 270,000 customers in 170 countries from its 432,000 sq. ft. state-of-the-art facility in Mansfield, Texas. For more information, visit www.mouser.com.
