## Be the first to try the new Digi International ConnectPort® X Gateways

**Mansfield, Texas, USA — February 16, 2010** - Mouser Electronics, Inc., known for its rapid introduction of the newest products, today announced it is stocking new product from Digi International.

Digi International ConnectPort® X Gateways provide PC or IP Network connectivity for end point devices in XBee WPANs. Digi International ConnectPort X Gateways collect end node data, aggregate it, and send it to a parent application using cellular, Wi-Fi, or Ethernet connections. Available in multiple configurations and supporting a wide range of applications, ConnectPort X Gateways are ideal for centralized data collection and communication in geographically diverse applications. These Digi International devices feature multiple form factors and configuration options for a wide range of applications and an easy-to-use Python® development environment for local applications. Optional GPS or local storage is also available. To learn more, visit <http://www.mouser.com/digi>.

Known for its broad-based product line, unsurpassed customer service, and streamlined warehouse operations, Mouser continuously offers customers the most innovative products and latest technologies for their new design projects. Mouser Electronics' website with interactive online catalog is updated daily, and searches over 5 million products to locate over a million part numbers available for easy online purchase. Plus, downloadable data sheets, supplier-specific reference designs, application notes, technical design information and engineering tools.

Known for its focus on design engineers with its broad product line, unsurpassed customer service, advanced on-line catalog and innovative product marketing, Mouser continuously offers customers the newest products and latest technologies for their new design projects.

### **About Mouser**

Mouser Electronics, Inc. is an electronic component distributor, focused on the rapid introduction of new products and technologies to electronic design engineers. Mouser.com features more than a million products online from more than 400 manufacturers. Mouser publishes multiple catalogs a year providing designers with up-to-date data on the components now available for the next generation of electronic devices. Mouser ships globally to over 270,000 customers in 170 countries from its 432,000 sq. ft. state-of-the-art facility in Mansfield, Texas. For more information, visit [www.mouser.com](http://www.mouser.com).

### **About Digi International**

Digi International offers innovative products and technologies that enable you to connect and manage serial, USB, and other electronic devices locally, remotely, over the network or via the web. Digi International makes device networking easy by developing products and technologies that are cost-effective and easy to use. For more information, visit <http://www.digi.com>.
