The New Digi m10™ Compact Satellite Modem is out of this world...and at Mouser!

Mansfield, Texas, USA — February 25, 2010 - Mouser Electronics, Inc., known for its rapid introduction of the newest products, today announced it is stocking new product from Digi International.

The Digi International m10™ compact satellite modem is a small footprint satellite module that provides worldwide satellite data connectivity for a wide variety of asset-tracking and industrial remote communication applications. The high-performance Digi m10 compact satellite modem operates on the ORBCOMM low-earth orbit satellite network and is designed to enable cost-efficient Machine-to-Machine (M2M) communication with virtually unlimited global coverage and no blockage. The Digi International m10 satellite modem features very low transmit and receive power and offers immediate product design integration through its integrated serial interface. The Digi International m10 kit provides all the necessary components for quick and easy product evaluation, development, and prototyping. To learn more, visit <http://www.mouser.com/digim10>.

Known for its broad-based product line, unsurpassed customer service, and streamlined warehouse operations, Mouser continuously offers customers the most innovative products and latest technologies for their new design projects. Mouser Electronics' website with interactive online catalog is updated daily, and searches over 5 million products to locate over a million part numbers available for easy online purchase. Plus, downloadable data sheets, supplier-specific reference designs, application notes, technical design information and engineering tools.

Known for its focus on design engineers with its broad product line, unsurpassed customer service, advanced on-line catalog and innovative product marketing, Mouser continuously offers customers the newest products and latest technologies for their new design projects.

About Mouser

Mouser Electronics, Inc. is an electronic component distributor, focused on the rapid introduction of new products and technologies to electronic design engineers. Mouser.com features more than a million products online from more than 400 manufacturers. Mouser publishes multiple catalogs a year providing designers with up-to-date data on the components now available for the next generation of electronic devices. Mouser ships globally to over 270,000 customers in 170 countries from its 432,000 sq. ft. state-of-the-art facility in Mansfield, Texas. For more information, visit www.mouser.com.

About Digi International

Digi International offers innovative products and technologies that enable you to connect and manage serial, USB, and other electronic devices locally, remotely, over the network or via the web. Digi International makes device networking easy by developing products and technologies that are cost-effective and easy to use. For more information, visit <http://www.digi.com>.
