Diodes Inc. ZXTP7xxMA Low Saturation Switching Transistors

Mansfield, Texas, USA — May 27, 2010 - Mouser Electronics, Inc., known for its rapid introduction of the newest products, today announced it is stocking new product from Diodes Inc..

Diodes Inc. ZXTP7xxMA series of low saturation switching transistors feature low equivalent on-resistance and low saturation voltage. The Diodes Inc. ZXTP717MA 12V PNP switching transistor features -4A continuous collector current. The ZXTP718MA 20V PNP switching transistor provides -3.5A continuous collector current. The ZXTP720MA 40V PNP switching transistor features -3A continuous collector current. The ZXTP722MA 70V PNP switching transistor provides -2.5A continuous collector current. These Diodes Inc. devices are ideal for DC-DC converter (FET driving), charging circuit, power switch, and motor control applications.

Known for its focus on design engineers with its broad product line, unsurpassed customer service, advanced on-line catalog and innovative product marketing, Mouser continuously offers customers the newest products and latest technologies for their new design projects.

Mouser Electronics' website with interactive online catalog is updated daily and searches over 5 million products to locate over a million part numbers available for easy online purchase. Plus, it houses downloadable data sheets, supplier-specific reference designs, application notes, technical design information and engineering tools.

About Mouser

Mouser Electronics, Inc. is an electronic component distributor, focused on the rapid introduction of new products and technologies to electronic design engineers. Mouser.com features more than a million products online from more than 400 manufacturers. Mouser publishes multiple catalogs per year providing designers with up-to-date data on the components now available for the next generation of electronic devices. Mouser ships globally to over 270,000 customers in 170 countries from its 432,000 sq. ft. state-of-the-art facility in Mansfield, Texas. For more information, visit www.mouser.com.

About Diodes Inc.

Diodes Incorporated is a leading global supplier of high-quality application specific standard products within the broad discrete and analog semiconductor markets. Diodes Inc. products include diodes, rectifiers, transistors, MOSFETs, protection devices, function-specific arrays, amplifiers and comparators, Hall-effect sensors and temperature sensors, and power management devices including LED drivers, DC-DC switching regulators, linear voltage regulators and voltage reference, as well as special function devices including USB power switch, load switch, voltage supervisor and motor controllers.
