Exar PowerXR Power System ICs are In Stock at Mouser!

Mansfield, Texas, USA — March 19, 2010 - Mouser Electronics, Inc., known for its rapid introduction of the newest products, today announced it is stocking new product from Exar.

The Exar XRP7704, XRP7740, and XRP7708 PowerXR power system ICs offer the low cost and flexibility of digital power management and control along with the robust power capabilities of analog switching power supplies. These Exar PowerXR power system ICs reduce development time and permit real-time power system adjustments. The XRP7708 is optimized to provide 8 Amps per channel capability while offering a pin and function compatible option to the 5Amp/channel XRP7704 and the 15Amp/channel XRP7740. The Exar XRP7704, XRP7708, and XRP7740 offer a wide input voltage range (6.5V to 20V) and output range (0.9V to 5.0V) with a built-in LDO for standby power. The XRP7714 has a 4.75V to 25V input voltage range. These power system ICs also offer power sequencing capability and integrated gate drivers.

Known for its focus on design engineers with its broad product line, unsurpassed customer service, advanced on-line catalog and innovative product marketing, Mouser continuously offers customers the newest products and latest technologies for their new design projects.

Mouser Electronics' website with interactive online catalog is updated daily and searches over 5 million products to locate over a million part numbers available for easy online purchase. Plus, it houses downloadable data sheets, supplier-specific reference designs, application notes, technical design information and engineering tools.

About Mouser

Mouser Electronics, Inc. is an electronic component distributor, focused on the rapid introduction of new products and technologies to electronic design engineers. Mouser.com features more than a million products online from more than 400 manufacturers. Mouser publishes multiple catalogs per year providing designers with up-to-date data on the components now available for the next generation of electronic devices. Mouser ships globally to over 270,000 customers in 170 countries from its 432,000 sq. ft. state-of-the-art facility in Mansfield, Texas. For more information, visit www.mouser.com.

About Exar

Exar Corporation powers connectivity with an extensive array of power management, communications, and interface silicon solutions. Exar's power management ICs are used in a variety of applications and include LDOs, DC/DC switching regulators, PWM controllers, charge pumps, and microprocessor supervisors. The products are designed for use together to create complete power management systems but can also be used as standalone solutions. Exar also offers online design tools to help designers create customized solutions using Exar products. For more information, visit <http://www.exar.com>.
