## FTDI USB-COM-PLUS Single- and Multi-Port Serial Modules

**Mansfield, Texas, USA — October 28, 2009** - Mouser Electronics, Inc., known for its rapid introduction of the newest products, today announced it is stocking new product from FTDI.

FTDI USB-COM-PLUS single- and multi-port serial communication modules provide a simple solution to the problem of connecting multiple RS232, RS422, or RS485 to USB. The FTDI USB-COM-PLUS single-port modules operate over a USB 2.0 Full Speed (12 Mb/s) interface, while the dual- and quad-port products operate over a USB 2.0 Hi-Speed (480 Mb/s) interface. These FTDI single-port and multi-port serial modules are powered from the USB port, require no external power adapter, and include PCB-mounted LEDs that indicate USB enumeration, Rx/D, and Tx/D signals. The USB-COM-PLUS modules handle the complete USB protocol and all level shifting without the need for any application software modifications. Known for its broad-based product line, unsurpassed customer service, and streamlined warehouse operations, Mouser continuously offers customers the most innovative products and latest technologies for their new design projects. Mouser Electronics' website with interactive online catalog is updated daily, and searches over 5 million products to locate over a million part numbers available for easy online purchase. Plus, downloadable data sheets, supplier-specific reference designs, application notes, technical design information and engineering tools.

Known for its focus on design engineers with its broad product line, unsurpassed customer service, advanced on-line catalog and innovative product marketing, Mouser continuously offers customers the newest products and latest technologies for their new design projects.

### About Mouser

Mouser Electronics, Inc. is an electronic component distributor, focused on the rapid introduction of new products and technologies to electronic design engineers. Mouser.com features more than a million products online from more than 400 manufacturers. Mouser publishes multiple catalogs a year providing designers with up-to-date data on the components now available for the next generation of electronic devices. Mouser ships globally to over 270,000 customers in 170 countries from its 432,000 sq. ft. state-of-the-art facility in Mansfield, Texas. For more information, visit [www.mouser.com](http://www.mouser.com).

### **About FTDI**

FTDI specializes in converting legacy peripherals to Universal Serial Bus (USB). They offer the easiest route to USB migration by combining USB-Serial (USB-RS232) and USB-FIFO silicon solutions with their ready-to-go royalty free USB drivers. FTDI's "total" solutions offer reduced development and debug costs and a fast time to market. For more information, visit <http://www.ftdichip.com>.
