Mouser is First to Stock the New Fairchild Semiconductor FAN562x LED Drivers with Single-Wire! Digital Interface

Mansfield, Texas, USA — September 20, 2010 - Mouser Electronics, Inc., known for its rapid introduction of the newest products, today announced it is stocking new product from Fairchild Semiconductor.

The Fairchild Semiconductor FAN5622, FAN5624, and FAN5626 are two-, four-, and six-channel current-sink linear LED drivers with single-wire digital interface used to backlight the main LCD displays or keypads in mobile electronics such as cell phone handsets. The Fairchild Semiconductor FAN562x family of linear LED drivers provides high efficiency due to the low drop-out voltage of the LED driver. The Fairchild FAN5622, FAN5624, and FAN5626 are available in very small form factor packages: 6-pin Super SOT23, 10-lead UMLP, and 10-lead MicroPak™ MLP, respectively.

Known for its focus on design engineers with its broad product line, unsurpassed customer service, advanced on-line catalog and innovative product marketing, Mouser continuously offers customers the newest products and latest technologies for their new design projects.

Mouser Electronics' website with interactive online catalog is updated daily and searches over 5 million products to locate over a million part numbers available for easy online purchase. Plus, it houses downloadable data sheets, supplier-specific reference designs, application notes, technical design information and engineering tools.

About Mouser

Mouser Electronics, Inc. is an electronic component distributor, focused on the rapid introduction of new products and technologies to electronic design engineers. Mouser.com features more than a million products online from more than 400 manufacturers. Mouser publishes multiple catalogs per year providing designers with up-to-date data on the components now available for the next generation of electronic devices. Mouser ships globally to over 270,000 customers in 170 countries from its 432,000 sq. ft. state-of-the-art facility in Mansfield, Texas. For more information, visit www.mouser.com.

About Fairchild Semiconductor

Fairchild Semiconductor is a leading global supplier of power analog, power discrete, and optoelectronic components that optimize system power. Recognized as The Power Franchise®, Fairchild Semiconductor offers the industry's broadest portfolio of components for today's leading electronic applications in the computing, communications, consumer, industrial, and automotive segments. For more information, visit http://www.fairchildsemi.com.
